

Preliminary program for Reproductive Disorders in Baltic Vertebrate Wildlife (BALTREP 2011)

7 – 8 December 2011,

Venue: the Ekman lecture hall, Norbyvägen 14, Evolutionary Biology Centre (EBC), Uppsala University, Sweden

Organizers: Cecilia Berg (UU), Katrin Lundstedt-Enkel (UU), Leif Norrgren (SLU), Jonas Malmsten (SLU) and Sara Persson (SLU)

Day	Time	Title	Speaker
7th December	09.00	Welcome, Cecilia Berg	Cecilia Berg, Organizing committee
Chair Cecilia Berg And Sara Persson	09.15 – 9.55	Contaminants in context with other stressors: effects on wildlife reproduction and sustainability	Val Beasley, Key note speaker
	10.00 – 10.30	Coffee plus Posters	
	10.30 – 11.00	Integrated monitoring indicates impaired fish health in Swedish coastal waters	Lars Förlin, Invited
	11.00 – 11.30	Title to be announced	Claes Andrén, Invited
	11.30 – 11.45	Why is the European Environment Agency interested in reproductive disturbances in Baltic wildlife?	Peter Pärt
	11.45 – 13.15	Lunch (included in fee) plus Posters	
Chairs; Katrin Lundstedt- Enkel and Jonas Malmsten	13.15 – 13.45	Reproductive failure in Baltic fish populations - what's the problem?	Magnus Appelberg, Invited
	13.45 – 14.00	Can fish contaminant concentrations influence fish reproduction?	Katrin Lundstedt-Enkel
	14.00 – 15.00	Poster session (coffee)	
	15.00 – 15.30	Endocrine and reproductive effects of environmental hazardous substances	Jan L. Lyche, Invited
	15.30 – 15.45	Polychlorinated biphenyl concentrations in wild mink (<i>Neovison vison</i>) from four different areas in Sweden	Sara Persson
	19.00 -	Social activity; Gala Dinner! (Included in fee)	
Day	Time	Title	Speaker
8th December	09.00 – 9.30	Anomalies of the reproductive system in the St. Lawrence Beluga whales: Three decades of pathology data	Stephane Lair, Invited
Chairs; Katrin Lundstedt- Enkel and Jonas Malmsten	09.30 – 10.00	Reproduction in Baltic seals	Britt-Marie Bäcklin, Invited
	10.00 – 10.30	Coffee plus Posters	
	10.30 – 10.45	Müllerian Duct Dysgenesis - a cause for female reproductive disorders in wildlife?	Cecilia Berg
	10.45 – 11.00	High frequency of Müllerian duct cysts on the <i>vas deferens</i> in Swedish wild otters (<i>Lutra lutra</i>)	Anna Roos / Erik Ågren
	11.15 – 11.45	Reproductive impairments and contaminants in white-tailed sea eagles in Sweden, 1965-2010	Björn Helander, Invited
	11.45 – 13.15	Lunch (Included in fee) plus Posters	
Chairs; Cecilia Berg	13.15 – 13.45	Population trends of Swedish coastal breeding birds	Martin Green,

and Sara Persson			Invited
	13.45 - 14.15	Thiamine deficiency in the ecosystem	Lennart Balk, Invited
	14.15 - 15.00	<i>Coffee plus Posters</i>	
	15.00 - 15.15	Embryotoxicity of perfluorinated compounds in birds: Is peroxisome-proliferator activated receptor alpha involved?	Björn Brunström
	15.15 - 15.30	Studies on reproduction in moose (<i>Alces alces</i>) in southern Sweden	Jonas Malmsten
	15.30 - 16.00	Discussion regarding all presentations, and concluding remarks	Cecilia Berg, Organizing committee
