

CRU METHODOLOGY WORKSHOP ON  
**METHODS FOR STUDYING IMMUNOLOGY AND BACTERIOLOGY  
IN REPRODUCTIVE ORGANS**  
WITH FOCUS ON THE MAMMARY GLAND

**SEPT 2, 2011**

Uppsala, Ultuna, SVA building, Travvägen 12D, "Lilla patologen"

10.30	COFFEE	
10.45	Welcome, information	<i>Sigrid Agenäs, SLU</i>
11.00	Immunological methods in the study of bacterial infections	<i>Caroline Fossum, SLU</i>
12.30	LUNCH	
13.30	HAMLET kills tumor cells but not healthy, differentiated cells – molecular, cellular and therapeutic aspects	<i>Petter Ström, Lund University</i>
14.00	Microbiological diagnostics of intra-mammary infections in ruminants	<i>Karin Persson Waller, SLU/SVA</i>
14.50	COFFEE	
15.10	Culture-independent analysis of the bacterial communities in healthy and mastitic milk	<i>Mark McGuire, University of Idaho Michelle McGuire, Washington State University</i>
16.00	Prevalence and spread of some selected udder infections at calving	<i>Åsa Lundberg, SLU/SVA</i>
16.30	AFTER WORK!	
17.30	<i>end of programme</i>	

The workshop is organized in collaboration with the SLU Research School in Translational and Comparative Medicine (TCM)

**Registration required: by e-mail to [sigrid.agenas@slu.se](mailto:sigrid.agenas@slu.se), specify if you have any dietary requirements.**
