**CRU SYMPOSIUM ON
REPRODUCTION IN WILD VERTEBRATES:**

**A meeting on ongoing research on all aspects of reproduction in wild
vertebrates**

**Thursday 10 February 2011,
Ultuna main building, Uppsala, Lecture Hall L**

Programme:

- | | |
|-------------|--|
| 08.30-09.00 | Registration |
| 09.00-09.10 | Welcome |
| 09.10-09.35 | Collection of reproductive data in the lynx
<i>Eva Axné, SLU</i> |
| 09.35-10.00 | Environmental pollution – a threat against reproduction in frogs
<i>Cecilia Berg, UU</i> |
| 10.00-10.25 | Improved reproductive success in grey seals, otters and sea
eagles in relation to decreased PCB concentrations
<i>Anna Roos, Swedish Museum of Natural History</i> |
| 10.25-10.50 | Coffee |
| 10.50-11.15 | Multivariate methods used during the multivariate research
chain – from design of experiments to data evaluation
<i>Katrin Lundstedt-Enkel, UU</i> |
| 11.15-11.40 | Cryptic female choice against inbreeding in the red junglefowl,
<i>Gallus gallus ssp.</i>
<i>Hanna Løvlie, UU</i> |
| 11.40-12.05 | Wild mink (<i>Neovison vison</i>) reproductive data for
environmental monitoring
<i>Sara Persson, SLU</i> |
| 12.05-12.15 | Concluding remarks |
| 12.15 | LUNCH |
