

Visualize your Science - Time and place for joint sessions

The course Visualize your Science normally represents a mix of online modules and face-to-face sessions. Theory and drawing tutorials are online whereas feedback sessions are normally face-to-face sessions at the Ultuna SLU campus. The fourth and last session is normally in the form of a mini-conference. For this last session, participants will need to print a poster. The research school Organism Biology will cover all reasonable expenses for printing the poster.

Given the Covid-19 pandemic at least the introductory joint session on October 8 will be in form of an on-line lecture this time. Depending on how the pandemic evolves also subsequent joint sessions may be changed from face-to-face to on-line sessions. In case face-to-face sessions will be offered at all participants may still choose to join via link if they prefer.

Joint session 1: Poster dissection

Date: 8 October

Place: On-line

Time: 09.15-11.00

Joint session 2: Feedback on graphical abstract

Date: 22 October

Place: Room to be announced at the Ultuna Campus *or* on-line (more info later)

Time: (You only have to attend one of these times)

- 08:00-09:30
