16 June 2025

## What's happening at BT?

Dear all,

Thank you all who joined the BT department day at Ven. Short summary: A few flat tires, some gears that did not work, a ticket in the water, a missing ticket that was found, some Alpaca wool and nice weather.

At the same time Hanna presented the preliminary subject area review groups and reasons to the faculty board.

Last Thursday the situation for teaching room bookings were discussed at faculty level, for a summary of the outcome se separate e-mail from Lars

This week Hanna attend the head of department lunch-lunch meeting in Höör Monday-Tuesday.

The BT GU strategic group have meeting Monday.

Wednesday there is a Lönnstorp economy follow up meeting.

Thursday there is hearing of HoD candidates 9-11.15 in Crafoord hall, see invitation in Outlook from dean Christina Lunner Kolstrup.

The new SLU Web will go live in a few days, if you have questions contact Tanya. Remember to activate your profile page!

Remember to register your summer vacation in Primula. Johanna should do other things than writing reminders!

HoD  
weekly  
info

We continue with official Monday meetings the rest of June. Free to continue in July and August for the ones that is working! Mid August formal meetings restart.

Hanna and Lars will make sure there is a HoD on duty on distance during July and August if there are needs of signing or other urgent issues.

Hanna will be on campus Wednesday and Thursday.  
Lars will be on campus Monday-Thursday.  
Do not hesitate to book a meeting.

Have a nice midsummer!

Hanna and Lars

Hanna Sassner – Head of department  
Lars Mogren – Deputy head of department and Assistant head of department with responsibility for education

## Stenhammardagen 2025

### Affärsmöjligheter och utmaningar utifrån djurhälsa och djurvälstånd

### Oleksiy's möte med HM Carl XVI Gustaf.

Ett drygt hundratal särskilt inbjudna gäster samlades den 10 juni på Stenhammars gods utanför Flen för årets Stenhammardag – ett årligt seminarium och en fältekursion i samarbete mellan Sveriges lantbruksuniversitet (SLU) och Stenhammars godsförvaltning.

Årets tema var affärsmöjligheter och utmaningar utifrån djurhälsa och djurvälstånd – en fråga i fokus för både näringsliv och forskning. I Stenhammars rymliga lada flög svalorna över gästernas huvuden. Lokalen var avdelad med stora halmbalar – i den ena delen hölls föreläsningar, i den andra serverades en lunch på hamburgare av gårdens kött, med vita ensilagebalar som temporära bord.

Oleksiy Guzhva och Niclas Högberg från SLU.

To all teachers, course leaders and examiners,

There will be a traditional central e-mail about room booking, so this is just my short summary from today's meeting:

- The projectors in all rooms are constantly checked and updated. At the moment they have a life span of approximately 10 years. It is important to report if you have trouble with a certain projector or room configuration.
- The universitetsdirektör has made a decision that rooms as standard shall be booked in blocks of 2 hours (if you desperately need to book 3h you are suggested to book 10.15-13.00) in the following time slots:
  - 8.15-10.00
  - 10.15-12.00
  - 13.15-15.00
  - 15.15-17.00
- It is not allowed to book a lot of rooms and time slots "to be sure", and later on un-book. Please just book the time slots you know that you need. There is always possible to re-schedule and re-book, but please make the work for the schedule room booking staff easier by just book the rooms you know you need.
- **Preliminary deadlines for period 2 autumn 2025:** 12 and 13 of November most rooms on Alnarp are booked for a conference, please try to minimize your on campus bookings these days.
  - 8 september is preliminary deadline to get help from UC with room booking for period 2.
  - 15 september is deadline for submitting room bookings in TimeEdit you do by yourself for period 2.

If you have questions regarding this, do not hesitate to contact me.

/Lars

**Need of contacting Service-group for office related issues?**

## Teaching room booking autumn 2025

IF you need help with some office related issues just mail below adress and discribe what you need help with from Servicegroup.

[5600@slu.se](mailto:5600@slu.se)

Pretty simple!

## REMINDER

Please remember to close the window that you open during a warm day, before you leave your office!

We are now having a period with a lot of calls from our guards. Many of the alarms are about open windows, but also doors that are not properly closed.

Then after a while the alarm goes off and the guards need to check. This costs SLU a large amount of money.

Important to close the windows you open in the end of your working day!

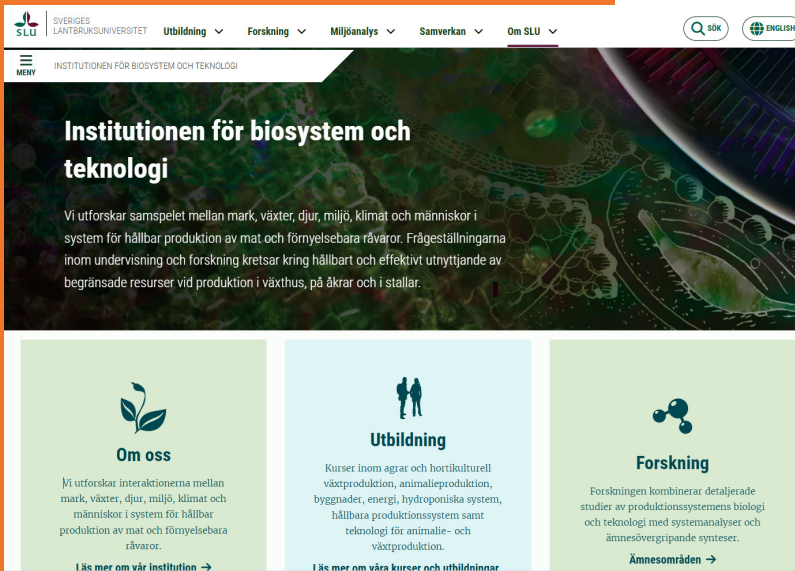

## Tomorrow our new website goes live!

Press below links for the website and the layout that has been created so far. IF you miss anything of importance please inform me.

Pictures and other possible content that is not in place yet, I might need help with choosing, from the different areagroups!

Feel free to come with preposals or if you have appropriate pictures for your working area!

//Tanya

What's going on at BT? What conferences are you speaking at? What exhibits are you involved in? What's your latest publication?

We want to hear all about it – and more!

Send your Outreach info to [bt-internt@slu.se](mailto:bt-internt@slu.se)

What are you up to?

# What's happening at SLU / LTV

Välkomna till LTV-fakultetens utbildningskonferens den 28 augusti på Campus Helsingborg.

**Sista anmälningsdag är 25 juni.**

Anmälan och preliminärt program hittar ni här:

[Utbildningskonferens LTV 2025 | Medarbetarwebben](#)

För mer information kontakta:

Caroline Dahl, vicedekan med ansvar för utbildning på grund- och avancerad nivå –

Cecilia Hultman, utbildningsledare – [cecilia.hultman@slu.se](mailto:cecilia.hultman@slu.se)

**Anmäl dig till LTV-fakultetens utbildningskonferens 28 augusti**

## For teachers

Book our four outdoor learning environment prototypes for the autumn now and take part in the evaluation!

These four prototypes need to be evaluated to determine whether one or all should become permanent. Therefore, they will be assessed during 2026. Each prototype has a QR code that links to an evaluation form. Depending on the outcome of the evaluations, we will apply for a building permit and replace the existing prototypes with permanent structures.

[Read more about the project and how to book here.](#)

On **September 10, from 1:00 to 3:00 PM**, you as an interested teacher are welcome to join a walkthrough of the prototypes and a presentation on the current status of the project.

Please email [sara.kyro@slu.se](mailto:sara.kyro@slu.se) for more information about the meeting.

We are in the process of recruiting a new head of department at the department for the coming 3-year mandate period.

Six candidates applied for the position and the recruitment committee has interviewed four of the applicants.

As a part of the recruitment process, we have chosen three potential candidates for a hearing Thursday June 19th 9-11.15am in Crafoord Hall. There will be a possibility to attend via Zoom (se zoom link below).

The purpose of the hearing is to give you as staff members at Biosystems and Technology the opportunity to get to know the candidates, to ask questions to the candidates and for you to give your point of views regarding the three potential candidates for the position (in a anonymous survey).

At the hearing the candidates will give a presentation of themselves, their leadership vision, how they view a possible assignment as head of department, how they would see

## Hearing of potential candidates as head of departments at Biosystems and Technology

**Thursday 19 June, 9-11.15**

themselves in the role as head of department (including opportunities and challenges) and also why they believe they would be the right candidate for the head of department assignment.

The two candidates are:

Thursday June 19th:  
9-10 - Helena Persson Hovmalm, Crafoord Hall.

10.15-11.15 - Lise-Lykke Steffensen, Crafoord Hall.

NB! The hearing will be held in English

After the hearing you will all receive a Netigate survey where you will have the opportunity to anonymous give your views on the candidates as potential candidates for the position as head of department.

The results from the hearing and from the Netigate will guide me as the dean and the recruitment committee in the decision on a new head of department for Biosystems and Technology.

I hope you will take the opportunity to join and use the possibility to be an active part of the process of recruiting your new head of department.

The applications of the three candidates will be uploaded later.

All the best  
Christina and the recruitment committee

*See email from Christina Lunner Kolstrup from 9 June for attachments!*

**Thursday 19 June, 9-11.15**

## Faktablad - Lägre motstånd i marken med strukturkalk

**Författare: Sven-Erik Svensson mfl.**

### Lägre motstånd i marken med strukturkalk

Författare: Jens Blomquist, Sven-Erik Svensson, Kerstin Berglund

Strukturkalkning är en åtgärd med primärt syfte att minska risken för fosforförluster från lerjordar. Med insatsen följer dock även andra positiva effekter på marken. En sådan är att dragkraftsmotståndet i marken minskar vid jordbearbetning och att jorden blir lättare att bearbeta, enligt mätningar i strukturkalkningsförsök i Skåne.

Med LOVA-stödets införande (statens stöd till lokala vattenvårdsåtgärder) kring 2010 blev strukturkalkning en utbredd åtgärd för att minska risken för s.k. partikulära fosforförluster. Åtgärden har satts in på nästan 70 000 hektar svenska lerjordar. I de flesta fall är det marknadens blandprodukter av kalkstensmjöl/kross ( $\text{CaCO}_3$ ) och släckt kalk ( $\text{Ca(OH)}_2$ ) som används.

## Good to know

### Sommaren är här och med den semestertider!

Vi på **Service** är på plats, men med lägre bemanning än vanligt från **vecka 26-32**. Under dessa veckor sköter vi endast den dagliga driften samt lättare ärenden i mån av tid.

Innan ni går på semester ber vi er att plocka undan på er arbetsplats och slänga ert skräp, det underlättar för oss inför sommarens städning.

**Servicecenter håller stängt vecka 29-31.** Vid behov av support kontakta Servicecenter Uppsala 018-672400.

I övrigt når ni oss som vanligt på 040-41 **5600** eller [5600@slu.se](mailto:5600@slu.se)
