**TEMPLATE 2 – GAP ANALYSIS - OVERVIEW**

Case number: 2021SE601702

Name Organisation under review: Swedish University of Agricultural Sciences (SLU), Sweden

Organisation’s contact details: Marnie Hancke, SLU, Uppsala, marnie.hancke@slu.se

**SUBMISSION DATE: 2021-11-04**

**DATE ENDORSEMENT CHARTER AND CODE: 2021-02-04**

**GAP ANALYSIS**

The Charter and Code provides the basis for the Gap analysis. In order to aid cohesion, the 40 articles have been renumbered under the following headings. Please provide the outcome of your organisation’s GAP analysis below. If your organisation currently does not fully meet the criteria, please list whether national or organisational legislation may be limiting the Charter’s implementation, initiatives that have already been taken to improve the situation or new proposals that could remedy the current situation.

**Abbreviations:**

LTV-faculty: Faculty of Landscape Architecture, Horticulture and Crop Production Science

NJ-faculty: Faculty of Natural Resources and Agricultural Sciences

VH-faculty: Faculty of Veterinary Medicine and Animal Science

S-faculty: Faculty of Forest Sciences
## European Charter for Researchers and Code of Conduct for the Recruitment of Researchers: GAP analysis overview

SLU’s staff are bound by the common values for all state employees. The values are based on the basic legal principles for state administration according to the form of government as well as other laws and regulations. At SLU, these are supplemented with four fundamental values: a) a scientific approach, b) creativity, c) openness, d) responsibility) that provide guidance in everyday life, by describing the starting point for our activities, for contacts with the outside world, and for how we behave towards each other and others.

SLU puts large effort into providing training for employees, doctoral students and students in issues such as research freedom. Such aspects are e.g. covered in the doctoral supervision course as supervision is an important educational instrument in doctoral-level education. Supervision is not just about communicating knowledge to students, but also involves promoting the development of doctoral students into independent researchers. This includes supporting the development of skills such as analytical abilities, critical and innovative thinking, project management and collaborating with others.

SLU’s staff are bound by the common values for all state employees. Regulations and general guidelines of the Swedish Board of Agriculture about experimental animals (Swedish only)

Directive 2010/63/EU on the protection of animals used for scientific purposes

The Swedish Board of Agriculture regulations and general advice on laboratory animals (SJVFS 2019:9)

The Swedish Research Council (Sw Vetenskapsrådet, VR) is a government agency within the Ministry of Education and Research. It has a leading role in developing Swedish research of the highest scientific quality, thereby contributing to the development of society.

Further assistance for researchers in ethical matters: Codex is operated by the Swedish Research Council in cooperation with The Centre for Research Ethics & Bioethics at Uppsala University. The website's aim is to give researchers and other interested parties access to and information on the guidelines, ethics codes and laws that regulate and place ethical demands on the research process.

Swedish Research Council’s publications

Etikprövningsmyndigheten (Swedish only) – Ethical Review Authority, established in 2019, with responsibility of performing ethical evaluation of research involving humans, but also research on biological material and sensitive personal data.

Ethical Review Act (2003:460)

with The Centre for Research Ethics & Bioethics at Uppsala University. The aim of Codex is to give researchers and other interested parties access to and information on the guidelines, ethics codes and laws that regulate and place ethical demands on the research process.

• The Board for Animals in Research and Teaching (FDN) functions as SLU’s animal welfare body and therefore work actively to prioritise animal welfare within the organisation. This includes providing advice to staff regarding animal welfare, as well as establishing and inspecting internal guidelines for the supervision, reporting and monitoring of the animals’ welfare and the comprehensive work with animal welfare within the organisation.

• Funders’ requirements and research ethics is part of the Manual for managing research material, section 1. SLU Grants Office provides support to individual researchers regarding this aspect.

• The Doctoral supervision course for docents includes a specific session on ethics.

• For PhD students it is mandatory to complete the equivalent of (at least) three credits of research ethics and philosophy of science. These courses address scientific misconduct, plagiarism, and the responsibilities of a researcher.

• Since 2019, SLU has a “Nagoya group” consisting of members from each faculty, the legal affairs unit, and administrative support.

• The Data Curation Unit assists researchers, doctoral students as well as Environmental
Sweden has a National Board for Assessment of Research Misconduct from January, 1, 2020. The board investigates research misconduct, cases that previously were handled by the Swedish universities.

Guidelines for handling of suspicions of deviations from good research practise, adopted by the Association of Swedish Higher Education Institutions (SUHF REK. 2020:3 Vägledning för hanteringen av mistankar om avvikelser från god forskningssed) in May 2020.

The Nagoya Protocol is an international agreement on genetic resources and associated traditional knowledge. The protocol regulates how the genetic resource are to be obtained, how they should be handled and used in research and product development, and how profit from utilisation should be be allocated.

Gap identified: SLU has no central board that is responsible for handling issues of misuse of ethical practices or Codes of Ethics.

### 6. Accountability

#### Relevant legislation

**Higher Education Act (1992:1434)**

**Chapter 1, § 4:** ‘The operations of higher education institutions shall be arranged to ensure that high standards are attained in courses and study programmes and in research.’ ‘The resources available shall be used effectively to sustain a high standard of operation.’ ‘Quality assurance procedures are the shared concern of staff and students at higher education institutions.’

The principle of public access to official records is expressed in different ways in the fundamental Swedish laws, for example through the right to freedom of expression, freedom of information for officials and the principle of public access to official documents.

#### Organisational regulations/Procedures

SLU’s division of responsibilities is described in the following documents:

- **SLU Board of Governors delegation of authority**
- **Vice-chancellor’s delegation of authority**
- **Delegation of authority at the LTV faculty** (Swedish only)
- **Delegation of authority at the NJ faculty** (Swedish only)
- **Delegation of authority at the VH faculty** (Swedish only)
- **Delegation of authority at the S faculty** (Swedish only)
- Annual dialogue between vice-chancellor and faculty managements regarding budgetary issues and competency maintenance plans.

---

**Trademark Act (2010:1877)**

**Trade Names Act (1974:156)**

**Plant Breeders’ Rights Act (1997:306)**

**Names Act (1982:670)**

**Higher Education Act (1992:1434)**

**Chapter 1, § 6**

The **Nagoya Protocol**

research, as well as to promote publishing in high quality dissemination channels.

- **Manual for managing research material** Section 1 in this manual specifically covers contractual and legal obligations concerning managing, preserving and publishing research data and records, as well as internal routines for this at SLU.

- **The Doctoral supervision course** covers aspects of contractual and legal obligations for researchers.

Since 2019, SLU has a “**Nagoya group**” (Swedish only) consisting of members from each faculty, the Legal Affairs unit, and administrative support (see principle 2).

- At the SLU staff web there is information about the **use of animals in research and education**.
Research contracts with foundations, research councils, the EU etc. For more information, see the Swedish Research Council on Open Access. [Public Procurement Act (2016:1145)](http://www.leg.se/lag/2016011145)  
[Ordinance (2007:603) on Internal Management and Control](http://www.leg.se/lag/20070603) |  
| - Annual dialogue between the dean and heads of departments regarding budgetary issues and competency maintenance plans.  
- [Manual for managing research material](http://www.leg.se/lag/20110203)  
- [SLU employees' obligations](http://www.leg.se/lag/20070603) is stated on the SLU Staff Web and addresses the importance of the employees knowledge and overall understanding of the responsibilities associated with being a government employee at a university or college.  
- [Quality and Impact](http://www.leg.se/lag/20110203) – research evaluations at SLU In order to gain insights into how SLU works toward the goals of creating knowledge on the sustainable use of natural resources demands not only that our research is of the highest international quality, but also that it comes to use in society. Two research evaluations, one in 2009 and the most recent in 2018 were initiated by the SLU University Board.  
- [Intensified SLU engagement for Agenda 2030](http://www.leg.se/lag/20110203)  
SLU is one of 51 Swedish authorities that have gathered to support the achievement of the social adjustments needed to fulfil the Sustainable Development Goals (SDGs) of Agenda 2030.  
- [Environmental certification](http://www.leg.se/lag/20110203) SLU is certified by ISO 14001.  
- Researchers are advised to contact [SLU Holding](http://www.leg.se/lag/20110203) and the [Legal Affairs unit](http://www.leg.se/lag/20110203) in issues concerning the utilisation of research (see principle 5).  
- [Grants Office](http://www.leg.se/lag/20110203) provides advice on contract issues, grant agreements and consortium agreements (primarily EU funding), always in dialogue with the Legal Affairs unit (see principle 5). |
• Grants office offers guidelines for external funding, stating that it is the responsibility of the Head of the Department to; a) determine whether the application/tender has the prerequisites to become a fully funded project, b) ensure that an application/tender is submitted and c) make sure that an application budget using SLU’s project calculator is established and finally registered in SLU’s documentation system (Public 360) without delay.

• SLU publishing policy covers Open Access issues. The policy states that each research publication must be registered in SLUpub, the university’s publication repository. Staff at the SLU Library support researchers in dealing with all publication issues.

• The Manual of Economy (Ekonomihandboken) addresses in chapter 14, aspects of entertainment and representation at SLU. The SLU purchasing policy is described in chapter 8.

• In SLU Guidelines for business travel and meetings, aspects of business travel are addressed.

• The staff web page Open data at SLU (Swedish only) provides information on what open data is and the different levels of open data.

• Within SLU’s environmental monitoring and assessment, a quality guide for the management of environmental data has been established and published. On the same web page, a guide (Swedish only) on how environmental data should be managed is also available. In addition, SLU has internal guidelines for managing environmental data (Swedish only).
| 7. Good practice in research | ++ | Relevant legislation
*Work Environment Act (1977:1160)*
Comprises general provisions regarding the work environment. A fundamental principle is that work should be adapted to the physical and psychological situation of the employee. The act also regulates cooperation between employer and employees.
*Data Protection Act (2018:218)* and *Data Protection Ordinance (2018:219)*
The EU’s General Data Protection Regulation (GDPR) applies from 25 May 2018. In connection with this, a new national act and ordinance were enacted to supplement the GDPR at a general level. The Data Protection Act clarifies under which circumstances certain personal data may be used.
*Archives Act (1990:782)*
*Public Access to Information and Secrecy Act (2009:400)*
*Lag om skydd mot olyckor (2003:778)* | Organisational regulations/Procedures
SLU actively works to create a safe and stimulating environment for all employees and students, in compliance with national legislation. A good work environment is a prerequisite for SLU to achieve the university’s goals, which contributes to making SLU an attractive employer and place to study. The employer has the main responsibility for the work environment and must, together with employees and safety representatives, develop routines to prevent illness and accidents in the workplace. SLU promotes a good work environment through a number of policies, organs and services:
- **Work environment policy**
- **Work environment guidelines on department level** (Swedish only)
- **Vice-chancellor’s delegation of authority** states that the Vice-Chancellor has the main responsibility for the work environment, but with the authority to delegate the responsibility in the line of organisation.
- **Delegation of authority at the LTV faculty** (Swedish only) specifies the responsibility of the Head of Department, including work environment and equal opportunities among others.
- **Delegation of authority at the NJ faculty** (Swedish only)
- **Delegation of authority at the VH faculty** (Swedish only) |
| **Delegation of authority at the S faculty** (Swedish only) |
| **Systematic fire protection work** The systematic fire protection work at SLU aims to protect people, property and environment. All employees must undergo a course in fire protection every fourth year. |
| **HLR Education at SLU** (Swedish only) training in cardiopulmonary resuscitation (CPR) |
| **Security and information security** The safety work at SLU aims at ensuring the least possible damage and loss, based on the overall goal that the work and study environment for employees, students and others that SLU engages, is safe and secure. SLU's tangible (property) and intangible (information and trademark) assets must be protected. |
| **Security and information security policy** (Swedish only) |
| **Strategy for preserving electronic records** SLU has a good structure for public access, enabling the public and researchers to easily access public records, including data from research and environmental monitoring and assessment. |
| **The Data Curation Unit** at SLU is responsible for the processes of archiving and publishing research data (see also principle 2). A policy for data management is in progress, expected to be finalised in autumn 2021. |
| SLU’s organisation for IT security coordination is based on a collaboration |
| 8. Dissemination, exploitation of results | ++ | **Relevant legislation**  
*Fundamental law on freedom of expression (1991:1469)*  
*Higher Education Act (1992:1434)*  
**Chapter 1, § 2:** ‘The mandate of higher education institutions shall include third stream activities and the provision of information about their activities, as well as ensuring that benefit is derived from their research findings.’  
*Act (1945:345) on the Right to Employee Inventions*  
(see principle 5) This act facilitates for teachers and researchers that research results can be used to create economic growth, social development and welfare through commercialisation. | **Organisational regulations/Procedures**  
SLU recognises and promotes the dissemination and exploitation of research results as a way of creating value within academia and society as a whole. The Division of Communication is responsible for SLU’s overall communication activities.  
Environmental Monitoring and Assessment is part of SLU’s missions since 1997 and thus gives SLU a unique role among Swedish HEIs. Environmental monitoring and assessment delivers science-based decision support needed to help reach our environmental objectives, nationally as well as internationally.  
For the exploitation of results, **SLU Holding**, a wholly-owned subsidiary of the university with a mission to support that the university’s successful research is made available to society, is a valuable asset. Researchers are advised to contact SLU Holding and the **Legal Affairs Unit** issues concerning utilisation of research. All agreements with third parties involving intellectual property rights issues must contain information on how IPR is handled. The Legal Affairs Unit at SLU is always involved in matters with third parties.  
The **guidelines on secondary employment** regulates employees’ possibilities to engage in secondary employment.  
Below we list examples of organisational units/divisions or activities with special focus on dissemination and exploitation of results. |
Collaboration Specialists are experts in different subjects, dedicated to combine proficiency in research with extension activities in their respective subject areas. SLU has during the last 10 years invested in four strategic platforms (SLU Future Food, SLU Future Forests, SLU Urban Futures, SLU Future One Health) with a mission:

i. to identify needs for knowledge, through projects based on synthesis and analysis, and generate scientifically based decision support for issues relevant to society;

ii. identify and develop, through collaboration with relevant actors in society, new questions for research to support solutions to future challenges;

iii. develop interdisciplinary working methods by coordinating cooperation across disciplinary boundaries.

* SLU Global is a unit at the Vice-Chancellor’s Office that supports SLU’s work for global development to contribute to Agenda 2030, with a focus on low-income countries. Through the different partnerships policy briefs are produced and disseminated.

* SLU Partnership Alnarp is a forum for cooperation between the LTV-faculty at SLU in Alnarp and the business community, public authorities and industry organisations in southern Sweden. The partnership’s activities include research and development projects, seminars, degree projects and mentoring programmes, with a focus on agriculture, forestry and horticulture.
• Movium (Swedish only) works with urban development issues in collaboration with several municipalities in Southern Sweden.
• Policy for scientific publishing at SLU covers Open Access issues. The policy states that each research publication must be registered in SLUpub, the University’s publication repository. Staff at the SLU Library support researchers in dealing with all publication issues.
• Published at SLU A website for popular science publications in print and on the web.
• SLU Knowledge bank A website about findings from research and environmental monitoring and assessment, also containing expertise on SLU connected issues.
• Worth knowing Worth knowing is a project with short lectures about SLU research.
• Strategic collaboration with Skansen and Baltic Sea Science Center
• Soapbox Science – SLU is involved in arranging and highlighting women in science through Soapbox Science events in both Umeå and Uppsala.
• Fascination of Plants Day SLU is participating in this international event with the aim to enthuse the general public about plants and plant science.
• PhD course on Information retrieval and methods for scientific communication.
• SLU is a member of the BIBSAM consortium, which provides national Open access agreements with a number of publishers.
• SLU researchers regularly contribute with knowledge to public service radio and TV programs, podcasts etc.
### 9. Public engagement

#### Relevant legislation

[Higher Education Act (1992:1434)]

**Chapter 1 § 2:** 'The mandate of higher education institutions shall include third stream activities and the provision of information about their activities, as well as ensuring that benefit is derived from their research findings.'

#### Organisational regulations/Procedures

SLU collaborates on a regular basis with regional as well as national and international actors to communicate research results and to mutually share knowledge and ideas, as well as to establish networks of actors in order to contribute to solving societal challenges. Below you find examples of public engagement:

- **SLU researcher** (Swedish only) participates in Netflix documentary “Connected”
- SLU publishes in a wide variety of newsletters, magazines, fact sheets, and policy briefs (in Swedish only)
- SLU is part of a national project concerning "Implementation of working methods and increased knowledge of knowledge assets and intellectual property rights" (IMP) (Swedish only)
- Researcher Grand Prix – SLU has participated in the Researchers Grand Prix, which is part of the European Researchers Night, several times.

- **SLU Collaboration Specialists** SLU experts in different subjects, dedicated to combine proficiency in research with extension activities in their subject areas.
- The Division of Communication produces press releases, as well as other relevant research news and events, and connects researchers to external media and vice-versa.
- **Artportalen** (Swedish only) The species portal is one of the world's largest reporting systems for species observations. Annually, about 10,000 users report several million species sightings. The database will soon contain 70 million observations, of which about 70% are birds. The
system is used by authorities, researchers and conservationists as well as the public. The information that is entered is searchable and free to use for everyone.

- **Naturens kalender** (Swedish only). Nature’s calendar is run by the Swedish Phenology Network, which is a network including several universities, authorities and associations. SLU is the network’s coordinator. Nature’s calendar collects observations of spring signs, autumn signs etc.

- **SciFest** (Swedish only) SLU arranges, together with Uppsala University, an annual science-festival, with focus on middle- and high school pupils.

- SLU is part of the **ARCS** (Arenas for co-operation through citizen science)-project that has the objective to help Swedish universities and colleges to use citizen research in a responsible and sustainable way, to collaborate with society (Swedish only).

- SLU Open House – SLU invites the public to its campuses to inform about studying at SLU and ongoing research. This year (2021) the events were **digital** due to the pandemic, and offered live-chats with student counsellors and career advisors (Swedish only).

- **SLU Youth Institute** aims to create interest among Swedish youth for global food security and to find sustainable solutions to the global challenges based on the UN Sustainable Development Goals. SLU Youth Institute is a Swedish part of the many Youth Institutes coordinated by the World Food Prize Foundation.

| • As part of SLU’s strategic, long-term work with recruitment and assessment processes from a gender equality perspective, assessment groups and others who participate in recruitment processes must consider gender equality and equal conditions in their work. Prior to the commencement of an assignment, external experts are encouraged to watch a film that describes bias and how it can be avoided.  
• **Victimisation** is not tolerated at SLU. All employees and students at SLU are to be treated equally and respectfully. Everyone is responsible for working to counteract victimisation.  
• **Discrimination and harassment** Through active health and safety work, SLU aims to create a stimulating work environment for all employees and students. A good work environment is a necessity to reach our operational objectives, and it makes us an attractive employer and place to study. The Divisions of Human Resources and of Service, Security and Environment jointly support the work environment processes.  
• The Division of Human Resources supports managers in discrimination issues. In addition, Equality Officers at every faculty support managers and other employees in the preventive work with gender equality and equal opportunities.  
• **Staff development review** is conducted annually and discrimination issues are discussed and followed up (see point 11).  
• The Division of Human Resources conducts an employee survey on a regular basis, the latest one was conducted in **spring 2021**. |
Gap identified: The share of female professors does not fall within the equal opportunities 40/60 interval.

- A PhD student satisfactory survey is conducted every third year, the latest survey was conducted in 2020.
- The course [SLU Leadership in academia](https://www.slu.se/en) (in Swedish) includes aspects of discrimination. Aspects of norm and norm critique will be included in future courses. [SLU’s leadership concept](https://www.slu.se/en) includes perspectives on gender equality and equal opportunities. All managers also participate in an extended web course on their responsibilities in the area.
- [SLU Staff Policy](https://www.slu.se/en)
- [Gender mainstreaming action plan](https://www.slu.se/en)
- [Guidelines in case of suspected harassment, sexual harassment of or reprisals against an employee](https://www.slu.se/en)
- In order to reach the goals on equal distribution of research funding, SLU has integrated a gender perspective in the annual budgetary work of the departments.

Initiatives undertaken: This gender gap at professors’ level is already identified and is included in a proposed action plan linked to SLU’s strategy 2021-2025 and is thus not included in this action plan. The proposed action to achieve equal career paths and opportunities for funding, the “mapping and proposals for action” in the gender mainstreaming plan need to include measures that follow-up the work to increase the share of female professors.

research topics and evaluations of government-initiated research efforts; the latter are done more frequently. The focus of the evaluations is on scientific quality, although aspects such as strategic management at the university level and research impact may occur. Responsibility for the compliance with ethical guidelines rests with the academic institution. Evaluation may lead to a redistribution of funds within the framework of an ongoing initiative. The quality of education (including third-cycle education) is externally evaluated by the Swedish Higher Education Authority (UKÄ), according to the national system for the quality assurance of higher education.

Ordinance (2007:603) on Internal Control
Internal Audit Ordinance (2006:1228)

2018 addressed three principle components a) Quality of scientific research, b) Societal impact of research, c) Capacity to collaborate with society. The results and recommendations of QI form the basis for future strategic decisions made at all levels of SLU.

- **Guidelines for the appointment of docents at SLU** Docent is a step on the academic career ladder, used as a proof that the person has developed their academic expertise after being awarded their doctoral degree and that these skills are of a quality required to act as principle supervisor for doctoral students.
- **Distinguished university teacher** is an SLU title awarded as part of the university’s quality enhancement activities in teaching and educational development.
- **Senior miljöanalysspecialist** (Swedish only) for SLU employees that mainly work with environmental monitoring and assessment.
- **SLU’s Career grants** Since 2016 SLU awards career grants to individuals who perform particularly well in research. From 2021 grants are awarded to researchers who have completed a doctoral degree at least 4 and at most 10 years before the date on which the grant is received. Recipients participate in a specially designed career development program.
- **Guidelines for SLU career grants for researchers.**

</table>
detail the assessment criteria for appointments and are based on SLU’s view of recruitment and skills supply.

- The majority of recruitments are conducted by the departments (researchers, post docs, lecturers (adjunct in Swedish) and this process is not regulated or standardised by SLU.
- The process for the recruitment of doctoral students is described in the document Admission regulations for third cycle education
- At the SLU website there is instant access to information about career paths under Academic career and ceremonies
- Organisation and working methods for SLU’s work with gender equality and equal opportunities. This is a document describing the working methods for gender equality and equal opportunities within SLU, which has been operational since July 2019. The organisation includes work with gender mainstreaming and equal opportunities both from an employer and education provider perspective. Information is also made available on the SLU website under Equal opportunities at SLU
- Under Jobs and vacancies at SLU, all vacant positions at SLU are listed to which applications are made through the web-based tool ReachMee. In addition, internally vacant positions are announced at the staff website, and are available without log-in restriction.
- Join SLU and My employment provide information on benefits, local union agreements, opportunities for professional development, career paths and practical information and advice about working at SLU and living in Sweden.
Gap identified:
The current advertisement templates do not entirely comply with the toolkit provided by EURAXESS OTM-R principles.

Gap identified:
The process for recruiting staff categories that are not handled by the Academic Appointments Board (i.e. researchers, post-docs, lecturers (adjunct in Swedish) is not standardised.

Suggestions for improvement: Revise advertisement templates according to the relevant section of the toolkit provided by EURAXESS (see Action Plan, action 10).

Suggestions for improvement: Develop coherent information on recruitment applicable to staff categories that are not handled by Academic Appointments Board (i.e. researchers, post-docs, lecturers (adjunct in Swedish). See Action Plan, action 6.

13. Recruitment (Code) +/-

Relevant legislation
Chapter 12, § 5: ‘When making appointments to posts within the State administration, only objective factors, such as merit and competence, shall be taken into account.’
§ 4: ‘When making appointments only objective factors such as service merits and competence shall be taken into account. Competence shall be a primary consideration, unless specific reasons otherwise exist.’
Higher Education Act (1992:1434)
Higher Education Ordinance (1993:100)

Organisational regulations/Procedures
• Standardised routines and templates characterises all recruitment processes at SLU, such as appointment profiles including required qualifications and assessment criteria stated prior to recruitment, templates for advertising, strict procedures for expert evaluations, guidelines for interviews and contacting candidates’ references.
• In addition to the Appointment procedures for teachers at SLU and the General assessment criteria for the appointment of teachers, and to further ensure legal

Certainty and high quality in recruitment processes, appointed external experts are provided with thorough guidelines on how to carry out their assignment. For example, they are given information on how the assessment should be structured and eventually presented at a meeting with the Academic Appointment Board. There is also a description of the definition of conflict of interest, where all external experts must give their written confirmation that there is no conflict of interest with any of the applicants. Furthermore, for gender equality reasons and prior to the commencement of an assignment, external experts are encouraged to watch a film that describes bias and how it can be avoided.

- For transparency reasons and to ensure that all necessary information reaches the applicants, standardised templates are used when communicating with candidates (see item 14).
- In the recruitment of professors, a Recruitment Committee is appointed by the Faculty Board in order to produce the advertisement. When appropriate, representatives from different business sectors with relevance for the recruitment, may be co-opted to the Recruitment Committee.
- SLU uses the recruitment tool ReachMee both to advertise vacancies and for digital application processing.
- Jobs and vacancies at SLU All vacancies are advertised on the official website of SLU, our internal staff web and on Platsbanken - the Swedish equivalency to Eures for a minimum of 10 workdays. SLU encourages publication of
**Gap identified:** Recruitment processes lack input from expertise at the Division of Human Resources.

**Gap identified:** SLU does not make use of platforms on social media for recruitment to a sufficient extent.

**Gap identified:** SLU does not have a policy regarding the advertisements for research staff including publishing at EURAXESS web portal.

| 14. Selection (Code) | +/- | **Relevant legislation**

|                       |     | **Higher Education Act (1992:1434)**  
|                       |     | **Higher Education Ordinance (SFS 1993:100)**  |
|                       |     | **Organisational regulations/Procedures**  
|                       |     | - [Appointment procedures for teachers at SLU](https://example.com) describes the selection process.  
|                       |     | "Teachers" refers to both teachers and researchers.  
|                       |     | - [General assessment criteria for the appointment of teachers](https://example.com)  
|                       |     | The selection process for professors, associate professors and assistant professors includes statements from external experts. At least two external experts are appointed by the Faculty Board to independently evaluate each candidates’ scientific and pedagogical competence. For gender equality reasons, advertisements in English in order to attract international applicants.  
|                       |     | **Suggestions for improvement:** To a larger extent engage the Division of Human Resources in the recruitment of research staff. A training programme on competency based recruitment is going to be offered by the Division of Human Resources every term, starting in April 2021, with the aim to reach all staff involved in recruitment processes (see Action Plan, actions 4 and 5).  
|                       |     | **Suggestions for improvement:** Develop a policy regarding publication of advertisements on platforms including social media (see Action Plan, actions 7 and 9).  
|                       |     | **Suggestions for improvement:** Develop a policy regarding advertisements for research staff including publishing at EURAXESS web portal (see Action Plan, action 8).  |
there must be both males and females among the experts. Based on the documentation submitted, the scientific experts examine whether the candidates meet the competence requirements or not, and then rank eligible candidates according to skills and merits (scientific, pedagogic). Each expert presents their observations, assessments and recommendations in a written report that is presented to the faculty’s Appointments Board, responsible for the specific recruitment. At some faculties, experts are also co-opted to the Appointments Board’s meeting in order to give an oral account of their assessment. In the recruitment of professors and for positions where teaching is a fundamental part of the position’s work description, at some faculties a pedagogical expert conducts a more detailed evaluation of the applicants’ pedagogical training, their teaching experience and documentation (teaching materials and course evaluations).

• Each of the four faculties has their own Academic Appointments Board, which consists of a broad composition of representatives from the faculty. Members of the Board are appointed by the Faculty Board and display an even gender distribution. Members of the Boards are given an introduction on the recruitment process when appointed.

• Based on the experts’ opinions and the internal discussion of the Academic Appointments Board, it is decided which applicants are to be invited for interviews.
**Gap identified:** There might be benefits in harmonising the four faculties’ Academic Appointments Board selection procedures.

- The Academic Appointments Board can carry out trial lectures, interviews and reference taking.
- The Board’s decision is a recommendation on which candidate should be offered the position. Either the Vice-Chancellor (for Professors) or the Head of Department (for all other academic positions) then make the final decision of employment.
- An overview of teacher’s recruitment process is given at the course SLU leadership (SLU Chefskap, Swedish only).
- With the university’s focus on strategic business planning, recruitment and competency maintenance plans become an important tool.

**Initiatives undertaken:** An investigation on the conditions of centralising the Academic Appointments Boards is already suggested in the action plan linked to SLU’s strategy 2021-2025 and thus not included in this action plan.

- Employment Protection Act (1982:80) § 5a
- Employment Ordinance (1994:373)
- Higher Education Ordinance (1993:100)
- Chapter 4-5

**Gap identified:** SLU’s information to early career researchers on aspects such as employment, salary and social benefits is scattered and inadequate.

**Gap identified:** Post-docs on stipend are not legally considered employees and are thus an organisational challenge for SLU.

- SLU follows the national collective agreement on post-doc positions (Swedish only).
- Doctoral studies in Sweden comprise four years full-time studies.
- All PhD candidates have employment contracts with full social security provision, either at SLU or with collaborating partner organisations (does not apply for doctoral students with stipend).

**Suggestions for improvement:** Develop coherent information to early career researchers covering aspects such as career development, employment, salary and social benefits (see Action Plan, action 13).

**Suggestions for improvement:** Investigation on conditions for post-docs on stipend (see Action Plan, action 15).

**Suggestions for improvement:** Mapping of post-docs on stipend as part of the annual complication (see Action Plan, action 16).

**Suggestions for improvement:** Survey on why departments accept post-docs on stipend (see Action Plan, action 17).

---

### Relevant legislation

The general social insurance system in Sweden consists of the following insurance branches:

1. Health insurance
2. Benefits in case of occupational accidents and occupational diseases
3. Disability benefits
4. Old-age pension and survivor’s pension
5. Unemployment insurance
6. Family benefits and parental insurance

National collective bargaining agreements exist between government agencies and the labour

### Organisational regulations/Procedures

- Individual salaries are based on objective grounds such as responsibility, complexity of the tasks, the individual’s results and skills in relation to the goals for the organisation, as described in the SLU salary policy.
- Salaries are usually revised on an annual basis, and depend on agreements made with local labour union representatives as well as at the national level.
- Salary levels for doctoral student positions are fixed and have a standard progression based on
unions SACO-S and OFR, ensuring that researchers receive a contractual salary and equitable social security provisions. Agreements can be found at [https://www.arbetsgivarverket.se/avtal--skrifter Kammkollegiet](https://www.arbetsgivarverket.se/avtal--skrifter) (the Swedish Legal, Financial and Administrative Services Agency) provides a national group insurance covering all foreign scientists in research. 

Discrimination Act (2008:567)

Health and parental insurance for doctoral students with stipends

Higher Education Act (1992:1434)

Chapter, 1 §§ 11-12 regulating health care and insurance for students with stipend.

achieving certain performance targets. Salary levels are internationally competitive. Doctoral studies in Sweden comprise four years’ full-time study.

• Social security benefits in Sweden are relatively generous for employees in all categories and levels.
• Parental benefit (Swedish only) is paid out for 480 days per child.
• Each year, SLU welcomes a number of foreign students, postgraduate students and researchers (Swedish only). [Doctoral student salary agreement](Swedish only)

### 27. Gender balance

**Relevant legislation**

Discrimination Act (2008:567)

Employers are to promote an equal distribution of women and men in different types of work and in different employee categories, by means of education and training, skills development and other appropriate measures. The letter of appropriation for SLU states for the year 2020 that SLU has to develop how the university considers gender equality in the distribution of research funds. Furthermore, SLU must report on how to work for an equal gender distribution when recruiting professors.

Higher Education Ordinance, Chapter 4, § 5 Equal representation and § 6 Assessment by external experts

Organisational regulations/Procedures

SLU continuously works to achieve an even gender balance among all categories of staff, including senior management. Members in advisory or decision-making bodies, external experts for a specific matter and recruitment committees have to be quantitatively gender equal.

• [Organisation and working methods for SLU’s work with gender equality and equal opportunities](Swedish only). From July 2019, SLU has a new organisation for work on equal opportunities and gender equality. The aim is to include a gender equality perspective in all processes at the university. There is a coordination group supporting this work, consisting of staff from

Organization and working methods for SLU's work with gender equality and equal opportunities.
Equal opportunities at SLU
Researchers at SLU have the opportunity and are encouraged to get involved in decision-making bodies at many different levels, as regulated in steering documents such as each faculty's Delegation of authority (see principle 7). Students, including doctoral students, have the right to be represented in all elected governing bodies at the university.
Advertisements for vacant positions as professor can list support of the strategic development of the department and faculty as a duty.
Language use at SLU is regulated primarily by the Swedish language Act and by SLU's own language policy and language guidelines. To a great extent, SLU is an international workplace with responsibility for ensuring that all employees understand and are able to participate in many activities. Therefore, it is important to create a parallel-language environment to the extent possible and to offer courses in the Swedish language.

| 39. Access to research training and continuous development | ++ | Relevant legislation
Higher Education Ordinance (1993:100)
Chapter 6, § 29: Individual study plans
An individual study plan shall be established for each doctoral student. This plan shall contain the undertakings made by the doctoral student and the higher education institution and a timetable for the doctoral student’s study programme. The plan shall be adopted after consultation with the doctoral student and his or her supervisors.
The individual study plan shall be reviewed regularly and amended by the higher education institution to the extent required after consultation with the doctoral student and his or her supervisors. The period of study may only be extended if there are special grounds for doing so. Such grounds may comprise leave of absence because of illness, leave of absence for service in the defence forces or an elected position in a trade union or student organisation, or parental leave. | Organisational regulations/Procedures
• Learning and Digitalisation – The Division of Learning and Digitalisation supports SLU’s teaching staff and others who are active in education through consultation, project management, courses and seminars such as 1) Supervising doctoral students, 2) Course in grading and assessment, 3) Education for critical thinking and criticality, 4) Education for sustainable development, 5) Teaching Active E-learning workshop.
• General doctoral student courses in addition to the subject-specific courses.
• Annual Staff Development reviews All SLU employees must have an annual, prepared and structured dialogue with their immediate manager. The review aims to further the individual’s and department’s/division’s development by evaluating the past and discussing what could be developed in the future (see also principle 38).
• Mentoring programme for doctoral students at SLU. It brings together doctoral students interested in independent, extracurricular
| 40. Supervision | ++ | Relevant legislation  
Higher Education Ordinance (1993:100)  
Chapter 6, § 28:  
'At least two supervisors shall be appointed for each doctoral student. One of them shall be nominated as the principle supervisor. The doctoral student is entitled to supervision during his or her studies unless the vice-chancellor has decided otherwise by virtue of Section 30. A doctoral student who so requests shall be allowed to change supervisor.'  
Chapter 6, § 29: Individual study plans  
see principle 39  
Chapter 6, § 30: Entitlement to supervision and other resources  
If a doctoral student substantially neglects his or her undertakings in the individual study plan, the vice-  
support and senior researchers willing to support young colleagues in the early stages of their career.  
• PhD students and other early-career researchers can also take part in the yearly staff development review within each department. It is an opportunity to address aspects of the supervision process on a higher level and to receive additional career support  
• For early-career researchers support is also available via Future Faculty at SLU: SLU Future Faculty aims at promoting the career of early career researchers at SLU. Career-promoting seminars, workshops and social activities are organised. SLU Future Faculty is part of the National Junior Faculty in Sweden. They organise career-promoting seminars and workshops. They monitor issues of interest to early career researchers, such as career structure and career support at SLU.  

Organisational regulations/Procedures  
Regulations for doctoral supervision are found in the University guidelines for doctoral education. Rights and obligations for doctoral students. At least two supervisors are appointed for each doctoral student. One of them is nominated as the principle supervisor. The Individual Study Plan (ISP) describes the commitments of the doctoral student and the university, respectively. An update is made annually, or when necessary.  
• Doctoral Supervision course is mandatory for all co-supervisors and main doctoral supervisors at SLU.  
• All PhD students are informed about their rights and obligations regarding the
chancellor shall decide that the doctoral student is no longer entitled to supervision and other study resources. Before such a decision is made, the doctoral student and the supervisors shall be given an opportunity to make representations. The case shall be considered on the basis of their reports and any other records available. The assessment shall take into account whether the higher education institution has fulfilled its own undertakings in the individual study plan. A written record of the decision shall be made, which is to include reasons for the decision.

Resources may not be withdrawn for any period in which the third-cycle student has been appointed to a doctoral studentship or is receiving a doctoral grant.

**Chapter 6, § 31:**

If study resources have been withdrawn pursuant to Section 30, the doctoral student may, on application to the vice-chancellor, recover his or her entitlement to supervision and other resources. The doctoral student must then demonstrate convincingly, by presenting prospective study results of considerable quality and scope or in some other way, that he or she can fulfil his or her remaining undertakings in the individual study plan.

supervision process via the [Doctoral education portal](#)

- In case of problems with the supervision process PhD students have access to a [doctoral student ombudsman/counsellor](#)
- To safeguard the quality of the supervision process each department has a Coordinator of PhD studies who has responsibility for yearly follow-up of the individual study plan and the follow-up for the half-time seminar. This person supports supervisors and doctoral students when there are questions or issues that they cannot solve themselves. A [Checklist for introduction of new doctoral students to doctoral education](#) exists to safeguard that doctoral students receive an introduction to their rights and obligations from their respective department
- SLU offers an [Online introductory course for doctoral students](#) which gives all new doctoral students relevant information on their rights, the supervision process and contact details to staff that can assist them if problems with the supervision should occur.
