

PROGRAM

13.00 Welcome + SLU Landscape info & current activities

[Ingrid Sarlöv Herlin & Lars Johansson]

13.15 New book: Urban Open Space Governance and Management

The book is directed to landscape professions and to support education, research and collaboration on the long-term development (governance and management) of open spaces, related to planning, design and construction.

[Märit Jansson & Thomas B. Randrup]

13.30 Breakout sessions - WORKSHOPS

See attached workshop descriptions

15.00 Back from breakout sessions - summary

- Coffee break -

15.30 Keynote speaker: Landscape Architect Emily Wade

See description below

16.20 Summary

[Ingrid Sarlöv Herlin & Lars Johansson]

16.30 End of the day

The event will take place on ZOOM.

Zoom-links will be available in the final program.

Emily Wade *Keynote*

Emily Wade is a Landscape Architect, partner of Landskapslaget AB in Stockholm and a teacher at SLU. Since 2010 she is the coauthor of several guidelines connected to planning of landscapes and public open space. In this lecture she will introduce the development of a new hub in SLU exploring how the design of infrastructure can assist in protecting and enhancing the landscape. The topic has evolved through a cooperation between Trafikverket and SLU.

WORKSHOP DESCRIPTIONS

WORKSHOP #1

SLU Landscape identity workshop

Within SLU Landscape we have a common vision and we all realize that we are stronger together. Still, we are very much tied to how we are organized. How could we improve our common identity and thus our impact within SLU Landscape?

Welcome to join in a participatory workshop on how we can improve our impact through a strengthen identity of SLU Landscape. In this workshop we will gather all your thoughts and ideas on how to create a strong identity for SLU Landscape. What is needed for us all to feel a stronger belonging to SLU Landscape, regardless of organizational affiliation? And how can we make it easier for us to collaborate across organizational borders?

Organized by: Ingrid Sarlöv-Herlin and Lars Johansson, Chair and Vice Chair of SLU Landscape

Workshop leader: Catherine Kihlström, Communication specialist and process leader (Spegla kommunikation och förändring AB)

WORKSHOP #2

Planning for collaborations with Kenyan landscape architecture education and the IFLA conference 2023

The Planning for IFLA conference workshop invites teaching and research staff from SOL, LAPP and AEM to a possibility to engage and influence coming IFLA conference 2023. The conference will be held in cooperation with Kenya and the planning thereof includes extensive collaboration with Kenyan landscape architects and landscape architecture teachers. This workshop session will provide an opportunity to:

- Get information about IFLA and the layout of the upcoming conference
- Discuss, engage and influence in the themes and work of the IFLA conference 2023
- An opportunity to get in contact with Kenyan landscape architects, architects and teachers
- Influence and/or become part of the planning team for the student competition and charrette to be held in connection with the conference.

Participators from the IFLA 2023 program committee in Sweden and from Kenya will be participating in the workshop.

Organized by: Pia Jonsson, Therese Andersson and Maria Kylin

WORKSHOP #3

Ways to tutor design through e-learning techniques

This session invites you to explore and try out different ways to tutor students in design with the aid of a digital tablet. The session will provide an opportunity to:

- Try out some techniques for tutoring design with the aid of a digital tablet.
- Discuss future techniques for tutoring landscape architect students when tutoring online.

To be able to participate in the workshop you will have to use a digital tablet. We will be using Wacombe intous pro tablet of medium size (A4).

Organized by: Sofia Sandqvist, senior lecturer at SOL

WORKSHOP #4

Embracing messiness? The practice of organizing digital work and references

During this workshop we engage with the practical and concrete struggles related to reference handling and ways organizing literature. As young researchers, the PhD forum have come to realize the value in engaging head on with practical obstacles, which inevitably occur in the everyday work of doing research. One such obstacle is the quest of navigating in the vast (digital) sea of knowledge and keeping track of research fields, journals and references. This becomes even more relevant in these days when working from home put our digital skills to the test! Together with guest from the SLU library and with senior colleagues we invite you to take part in the workshop and discussions. Topics which will be discussed at the workshop includes:

- Embracing messiness or take time to get organized? Experiences and thoughts
- How not to get too stuck in your computer in times of home office work
- Practical tips of keeping track of references and literature; software and techniques

The workshop is open for all, not just PhD students, and we would very much like to hear reflections and experiences from senior researchers on these subjects!

Organized by: SLU Landscape PhD Forum

WORKSHOP #5

Pedagogical challenge: supporting creativity at a distance

Creative work consists of many stages and some sort of impression often initializes the process. Landscape experience is an integral part of developing a reflective and professional creativity within the landscape field.

Exposing students to an experience of the blue environment along the seashore has played a major part in the Nature Based Intervention course and transferring this even into the distanced, digital environment is a challenge.

The participants will experience the seashore through the different formats of images and film. Following this, we will gather our impressions in a brain storming session, structure and discuss the results. (Using the most appropriate program, Padlet, Mural or other..)

Finally, we will discuss our personal experiences of how well the method works and consider the feasibility of applying it during the extent of the distancing measures.

The ambition is for this to be a method-development workshop, following which the method can be applied into the participants own tuition.

Organized by: Petra Thorpert, Anna Maria Palsdottir and Emma Butler (SLU Landscape Teaching Forum)
