

## Workshop descriptions April 14

### Workshop 1: Den Digitala omställningen – Framåt

**Wednesday 14 April, 15.30-17.00**

**Description:**

Vi klarar av att lösa vår undervisningsvardag och har flyttat kurserna till distansformatet. Men vad krävs för att vi ska komma längre? Vi ska ju behärska formatet för att leda distansstudier på bästa sätt. Vilka nya verktyg, pedagogiska lösningar, stöd och samarbeten krävs? Vad behöver vi ändra?

**Organized by:** TSF-forum – SLU Landskap, Emma Butler (SOL), Anna Maria Pálsdóttir (IMS), Petra Thorpert (LAPF)

**Language:** Svenska (Swedish)

### Workshop 2: Design Research in SLU Landscape

**Wednesday 14 April, 15.30-17.00**

**Description:**

The purpose of this workshop on Design Research is to share experience, reflections and visions of what design research within the domain of SLU Landscape could be. How do we as teachers and researchers in landscape architecture (and other landscape subjects?) talk and teach about design and what is our common preconditions for to pursue "design research" further?

**Organized by:** Gunilla Lindholm (LAPF)

**Language:** English

### Workshop 3: Urban Soil and Plant Strategies

**Wednesday 14 April, 15.30-17.00**

**Description:**

A workshop to discuss what role SLU Landscape can play research on technology and design of sustainable urban soil-water-plant systems. The starting point is the newly started project at Ultuna Campus to study biochar-based plant soil in co-operation with the Dpt of Soil and Environment. The aim is to study vegetation growth with a special focus on root development in different soil mixtures. The test beds will also serve as a meeting point to discuss what plants and soil mixtures that might be suitable in a larger scale when Uppsala expands with new districts and new infrastructure for public transport. In what way can SLU Landscape contribute to promote collaboration with actors outside the university about urban open space planning and management?

**Organized by:** Petter Åkerblom (SOL) och Henrik Sjöman (LAPF)

**Language:** English

## Workshop 4: Exploring future possibilities in Alnarp living labs. Collaboration and research on multisensory design

**Wednesday 14 April, 15.30-17.00**

### **Description:**

In this workshop, we will discuss future developments in Alnarp living labs. A new research infrastructure, SLU Multisensory Outdoor Laboratory, is currently under development at the Alnarp campus, opening up for new lines of research, teaching and collaboration. Take part in this workshop to discuss the new garden laboratory and topics like: Living lab collaboration, Multisensory design, Physiological measurements, Smart technology, Landscape representation, Rehabilitation garden and Healing landscapes.

**Organized by:** Gunnar Cerwén (IMS), Caroline Hägerhäll (IMS), Anna Maria Palsdottir (IMS), Sara Kyrö Wissler (IMS)

**Language:** English

## Workshop 5: Course adventure with Kenyan course on upcoming IFLA-conference 2023

**Wednesday 14 April, 15.30-17.00**

### **Description:**

The objective is to start a draft for a specific course, a course in collaboration between Sweden and Kenya. In simple forms and in a small group we will discuss the similarities and differences between Kenyan and Swedish Landscape architect programs and look for possibilities to create a course that could be implemented during the IFLA conference 2023.

**Organized by:** Pia Johansson (SOL) and Maria Kylin (LAPF)

**Language:** English

## Workshop 6: Discover your everyday surroundings – exercises and conversations on landscape based wellbeing

**Wednesday 14 April, 15.30-17.00**

### **Description:**

Do you have a creative mind and long to be outdoors? Then this is the workshop for you. We invite you to an energizing workshop where you get a chance to think about your everyday surroundings while we immerse ourselves in the landscape's importance for our well-being. We alternate between short outdoor exercises and group conversations over zoom. Together, we will build a conceptual map for how we can understand and communicate landscape-based well-being.

Before the workshop, we invite you to:

- Prepare something you can sit/lie on outdoors
- Get out your shoes and clothes so that you can quickly switch between outdoors and indoors.
- Have a mobile or camera ready to take photos.
- Learn how to transfer photos to computer/zoom.

**Organized by:** Mari Kågström (SOL), Andrew Butler (SOL), Helena Mellqvist (LAPF), Fredrika Mårtensson (IMS)

**Language:** English

## Workshop descriptions April 15

### Workshop 7: Hur gick det för våra grannar? Digitalisering och distansundervisning utifrån ett nordiskt perspektiv

**Thursday 15 April, 10.15-11.45**

**Description:**

Presentation av erfarenheter från Köpenhamns Universitet, Dorthe Varning Poulsen, och Landbúnadarháskóla Íslands (Íslands lantbruksuniversitet) Helena Guttormsdóttir.

Gruppdiskussion kring sammanhang och lärdomar. Erfarenhet av våra nordiska kollegor samt reflektioner ifrån TSF-forums digitala workshopar under vårterminen 2021.

**Organized by:** TSF-forum – SLU Landskap, Emma Butler (SOL), Anna Maria Pálsdóttir (IMS), Petra Thorpert (LAPF)

**Language:** Svenska (Swedish)

### Workshop 8: Campus Lab Landscapes: Creating dialogue between Alnarp, Uppsala, and Umeå

**Thursday 15 April, 10.15-11.45**

**Description:**

This workshop aims at discussing the opportunities and values of living labs at campus/ a campus as a living lab to inform ongoing practices and international tendencies. The workshop starts by receiving some input from an international perspective on campus labs that opens the dialogue on value and interest in such form of living labs. In a second step, this is linked to examples from the three SLU campuses, which represent different stages in campus development endeavors, where living labs do or potentially can play a bigger role. Finally, the closing dialogue will focus on sharing of interests and potential collaboration opportunities at SLU and beyond.

We will use *Miro* as an online whiteboard in our workshop. You will receive a link to the whiteboard we will set up when we start the workshop, however, feel free to get familiar with the tool beforehand. During the workshop there will be instructions to make this an easy and effective use.

**Organized by:** Urban Futures, Nina Vogel, Acting Director SLU Urban Futures (UF), Matilda Alfengård (UF secretary), Sara Kyrö Wissler (Alnarp's Gardenlab), Tim Hofmeester (UF hub-coordinator Umeå), Johanna Wallsten (SLU Röbbäcksdalen), Marcus Hedblom (UF hub-coordinator Ultuna), Annika Herth (TU Delft/Netherlands) and NN (Uppsala campus labs)

**Language:** English

## Workshop 9: Ask a researcher! The craft of research and how to deal with unexpected changes

**Thursday 15 April, 10.15-11.45**

**Description:**

With this interview-format workshop, PhD students will have the opportunity to engage in a dialogue with senior researchers about the basics of research design, planning and method, and, more specifically, how to deal with unexpected changes along the way. What is possible to do when interviews or fieldwork cannot be carried out as planned? How flexible can a research project really be? We try to absorb some of the wisdom of Josefin Wangel and Rolf Johansson.

**Organized by:** PhD Forum, Azadeh Shahrads (LAPF), Johan Wirdelöv (LAPF), Sued Ferreira da Silva (SOL)

**Language:** English

## Workshop 10: A strategy for GIS in SLU Landscape

**Thursday 15 April, 10.15-11.45**

**Description:** The workshop will discuss possible future pathways to develop GIS within SLU. Participants will be asked to provide a short overview of what your research/teaching entails and we can discuss how GIS might contribute to that. The aim is to identify common themes in how GIS could be used, what resources are needed to unlock that potential and how we can work together across departments to that end.

**Organized by:** Neil Sang (LAPF)

**Language:** English
