

## Instructions for visitors to Lövsta pig herd

### Teachers/leaders

- Maximum 15 visitors per group in the stable.
- The pig stable is to be visited first if the trip to Lövsta also includes visits to other stables, the bio-gas plant or the slaughter house.

### Visitors

- Visitors must not have visited **other pig herds** or had any contact with other pigs during the last 48 hours.
  - If you have been in the **infection control zone for African Swine Fever** there is also a 48 hour quarantine period before visiting the pig herd.
  - For visitors that have been **abroad** during the last 5 days special rules apply and all visitors from other countries need to complete a “Visitors certificate” (free to download at [Dokument & Länkar | Smittsäkrad Besättning Gris | Gris - smittsäkra.se \(smittsakra.se\)](#)).
1. Visits outside Sweden regardless of country without livestock contact **No quarantine period** or need to shower on entry
  2. Visits with livestock contact in the EU incl. USA, Canada, Australia and NZ not declared infected or “closed” by the EU or the SJV. **Quarantine period** – 48 hours or shower on entry
  3. Contact with livestock in the ”epizootic infected” countries ex. Russia and Eastern Europe, Asia, Africa, South and Central America. **Quarantine period** – Absolute ban for 48 hours, after 3-4 days shower on entry and after 5 days normal procedure.
  4. Worked with animals in ”epizootic infected” countries or in Sweden in, by SJV closed/restricted herds. **Quarantine period** – Absolute ban to the area and stables for 5 days.

- At arrival to Lövsta the person in charge of the visit shall contact the pig herd staff for entrance instructions.
- Vehicles that have been within the **infection control zone for African swine fever** need to be washed in a car wash before being allowed to park outside the pig stable.
- **People not allowed entry to the pig herd:**
  1. Anyone showing symptoms of the flu such as airway symptoms (cough, sore throat, runny nose), muscle ache, fever, diarrhea or vomiting (human flu can easily be transmitted to the pigs)

### **Entrance routines**

- Fill in the journal for visitors and a health declaration before entry
- Enter through the changing rooms, for ladies or gentlemen
- Change clothes to underwear level – personal shoes and clothes should be left in the outer changing room
- Clean long sleeved t-shirts, tights and long johns are considered as underwear and are recommended during the cold season.
- Phones are not allowed into the stable unless there is a certain reason (needs to be approved by the person in charge of the visit)
- Please consider people with allergy and avoid perfume.
- It is mandatory to wash and disinfect hands before entering the inner changing room
- Change into the stables own T-shirt, visitors overalls, socks and slippers in the inner changing room
- Await pig herd staff and/or teacher in charge in the lunch room before entering the stable

### **Inside the stable**

- Change to stable boots at the entrance to stable, cleanse boots and change to slippers when returning to the staff area
- All visitors are to wear disposable face masks and hair covers
- Wash and disinfect hands before each entrance to the farrowing units
- Do not enter the pens or touch the pigs if it is not a specified part of the visit or trial

- Visiting order: Farrowing units first, then dry sows, finishing pigs last.

#### **Exit routines**

- Put the stable clothes in the laundry basket in the inner changing room
- There are showers if you need, bring your own towel
- Mandatory to wash and disinfect hands before exiting the pig stable
