# Environment and Sustainable development at SLU

Information for employees and associates

# SLU has the following environmental objectives since 2013:

Energy

Education, research and environmental Monitoring and Assessment in 2014

Business trips

Purchases

# SLU's environmental goals

## within energy

SLU will be **self-sufficient** in all forms of energy used (self-managed properties) in 2020.

SLU shall **save energy** by at least 1% per m<sup>2</sup> per year, from 2012 at all its properties

**Fossil fuels** for heating will be **phased out** as soon as possible, latest in 2016.

# SLU's environmental goals

## within business trips

**SLU will reduce carbon emissions** from travels by 10% per employee by 2020.

In addition:

- there will be an opportunity for climate funds to be investigated
- education and information will be implemented

Carbon dioxide emissions from **domestic trips** will be cut by 20% by 2016 by reducing air travel.

The number of **video conferences** will increase by 15% by 2016.

# SLU's environmental goals

## within purchases

SLU will impose relevant environmental requirements in 90% of all purchases of consumables.

SLU shall implement the **environmental risk assessment** for all goods and services by 2015.

2016, 40% of all contracted supplies will be **labeled "good environmental choice"** and will be available in SLU's e-commerce **Procedo**.

**SLU needs to look into:**

- goods and services negative environmental impact,
- possibilities for controlling and monitoring the environmental field with system support

**The follow-up** in 2014 of at least one procurement: has the reduced **environmental impact** achieved?

# SLU's environmental policy

- "SLU aims to promote sustainable development with emphasis on ecology, social and economics issues.
- Environmental awareness and environmental aspects must be integrated in all decision making and in all activities concerning SLU's work units.
- SLU's environmental work is a long term process, which is based on continuous improvement of current environmental legislation. ”

# ISO 14001

International standard for environmental management systems

- The basic requirement: follow the law
- Also: have systematic environmental management with continuous improvement.
- It can be certified according to the standard

Finns även under fliken "Aktuellt" och så småningom även under "kontakter".

**Diskussionsforum öppnat!** 2013-01-18 11:00  
av Camilla Källman

En första version av ett diskussionsforum för SLUs miljösamordnare är nu öppnat. Förhoppningsvis kan detta medföra utbyte av erfarenheter och underlätta arbetet. Diskussionsforumet finns i vänsterspalten. Någon som inte kommer in eller har frågor angående...

**Revisioner 2013** 2013-01-18 10:57  
av Camilla Källman

Nu finns ett schema för de som vill fylla i sina interna- och externa miljörevisioner inför år 2013. Det finns under "Revisioner" i vänsterspalten.

Miljöcertifiering

# Environmental Management

Sveriges lantbruksuniversitet  
Swedish University of Agricultural Sciences

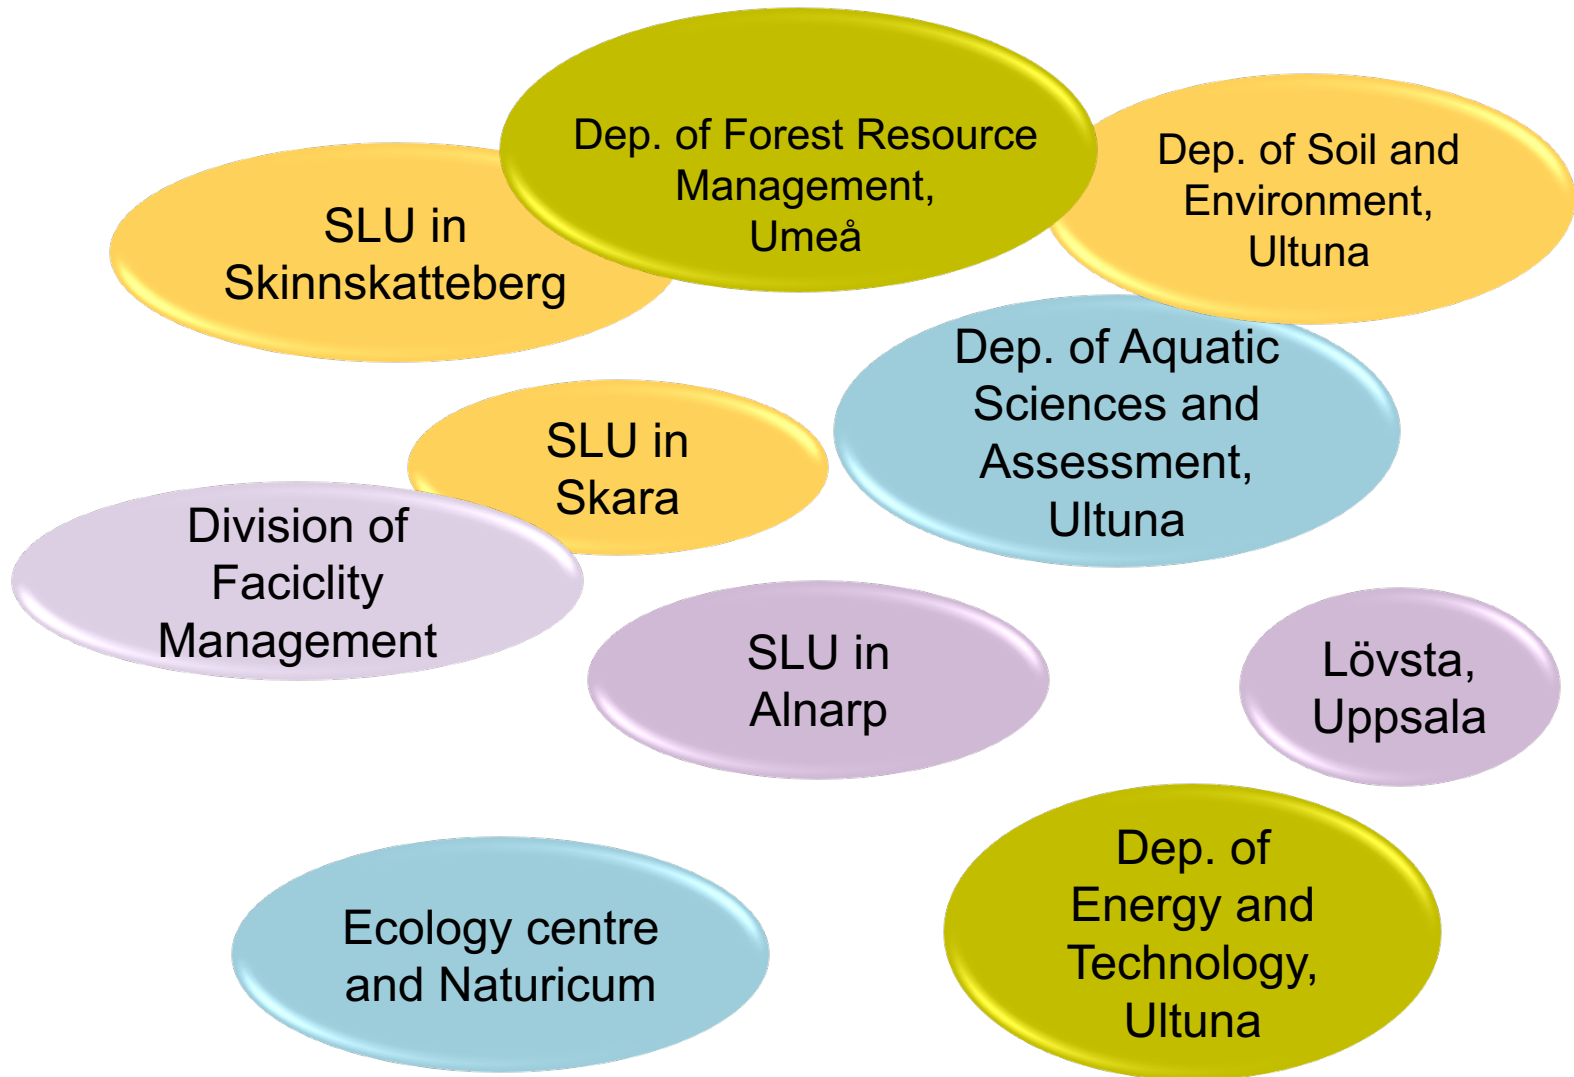

# Environmental Certification

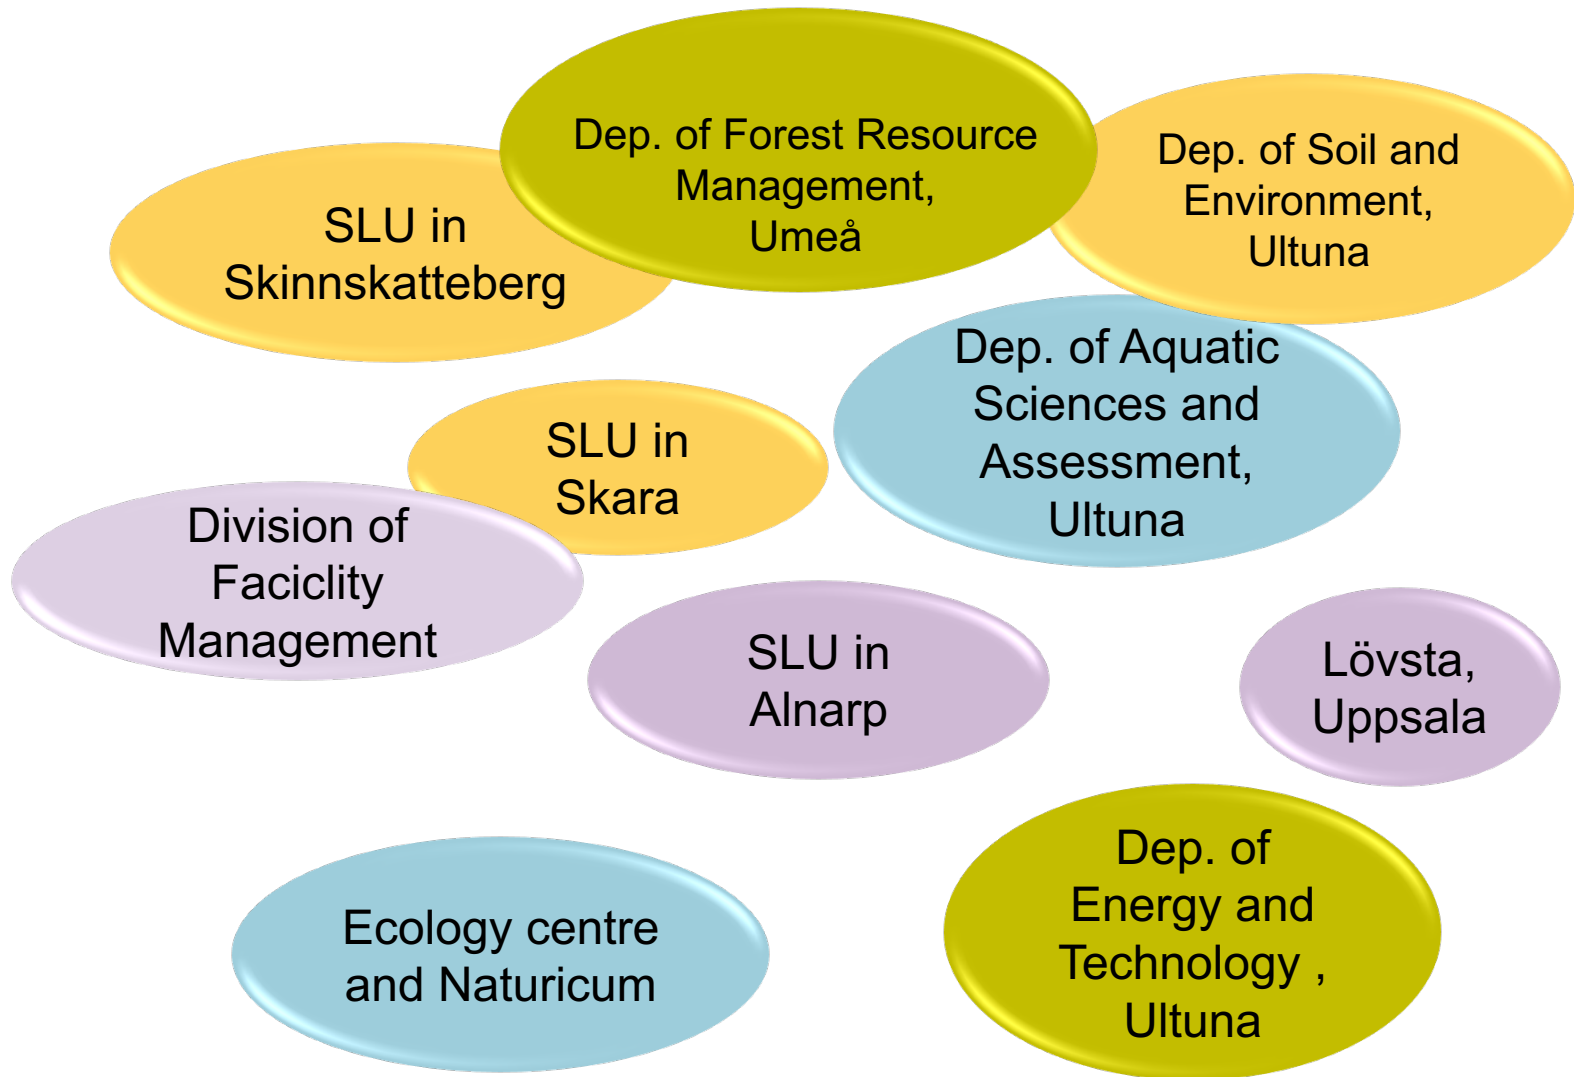

## **The Vice Chancellor has decided:**

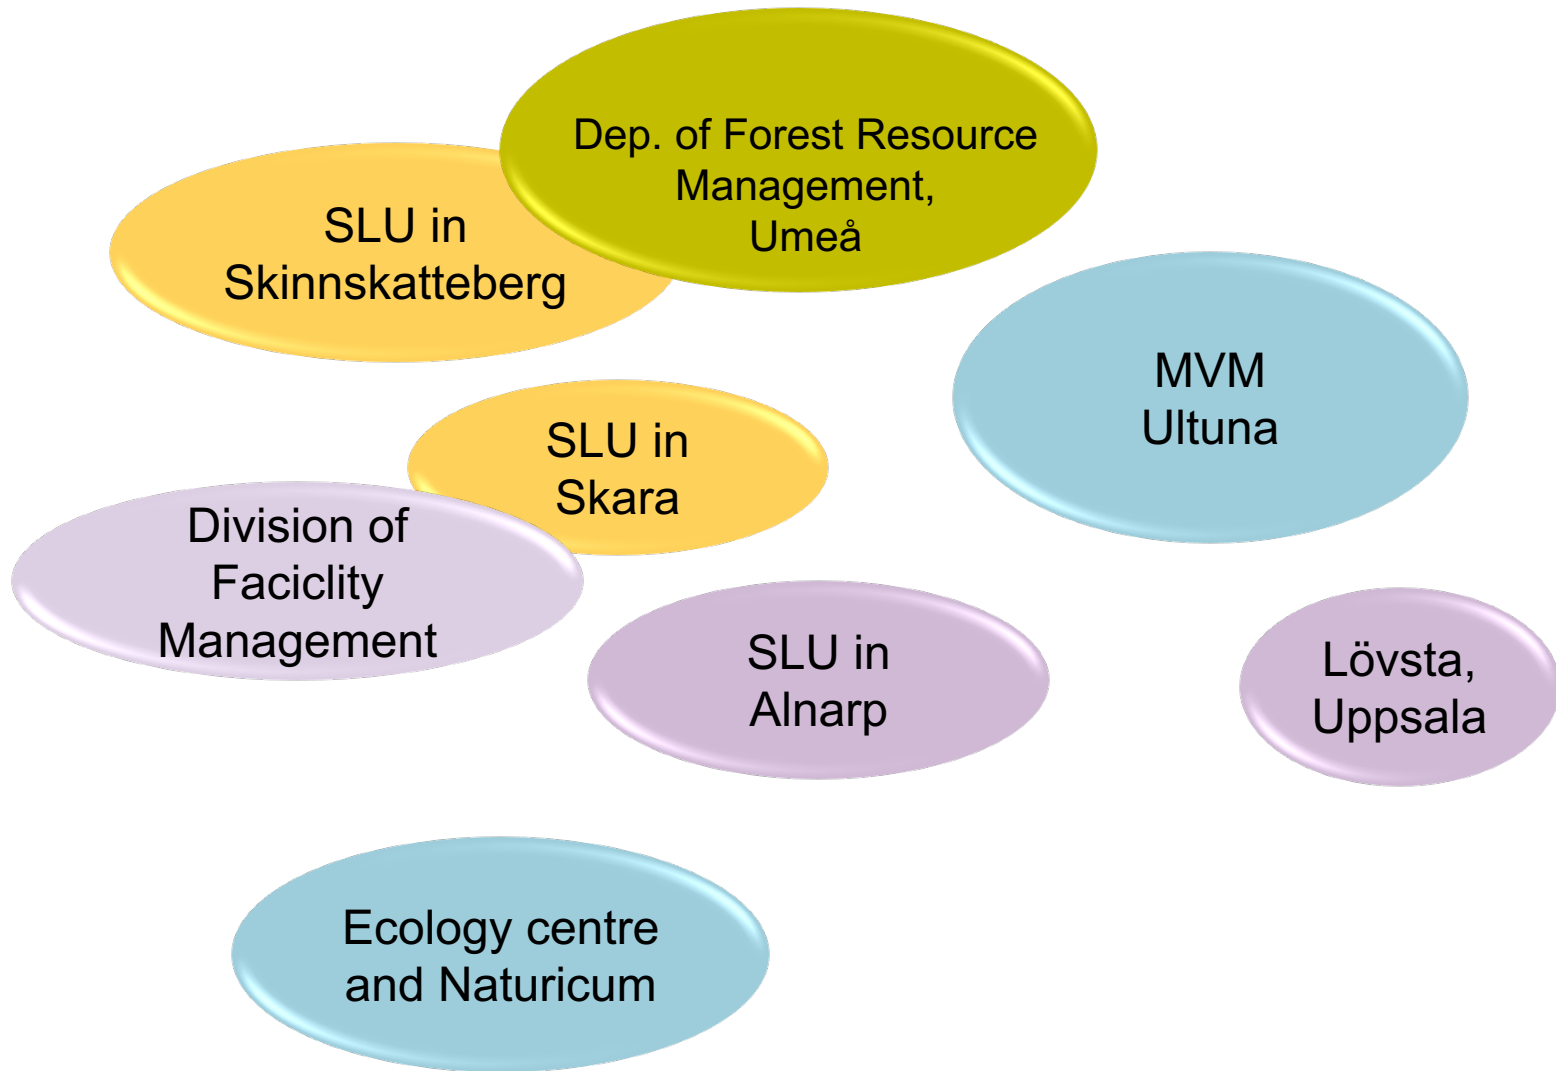

that the entire university should have an environmental certification before the end of 2016.

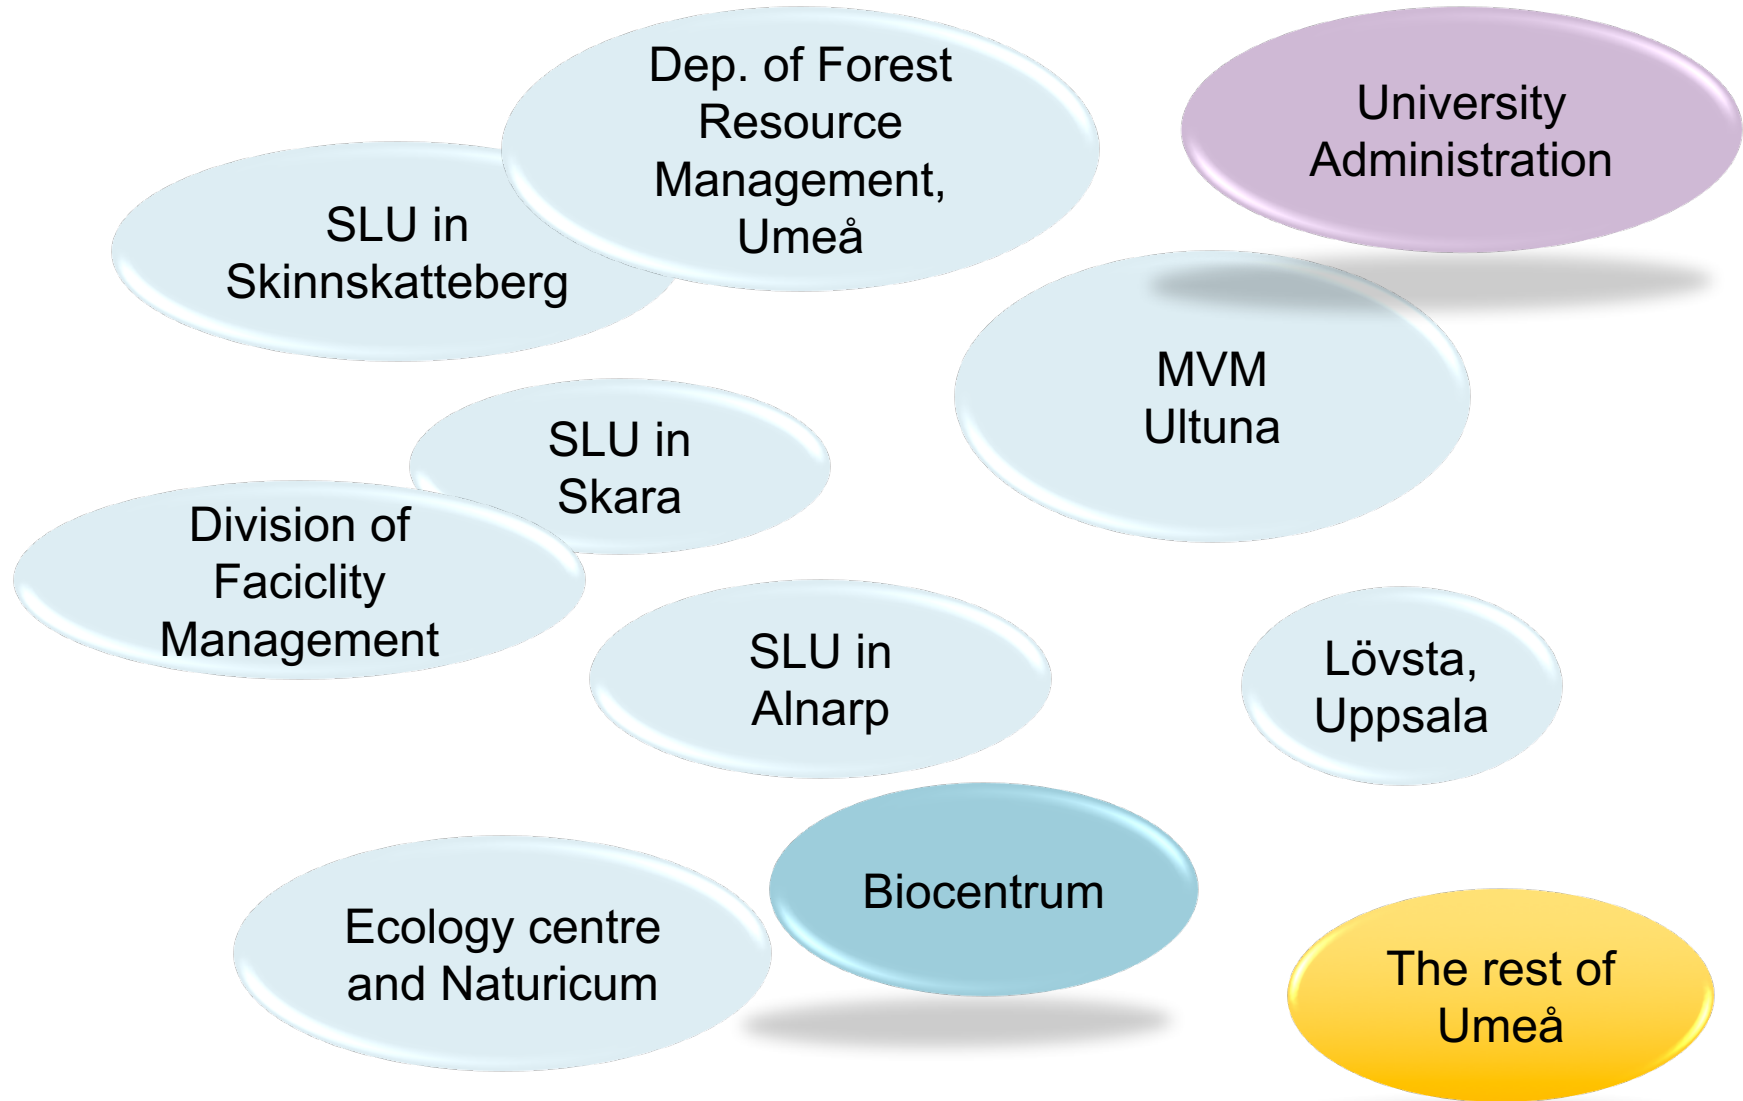

# In progress 2014

# What is environmental certification?

**For the environmental coordinator:**

Organization  
and  
responsibility

Environ  
mental  
goal

Education

Environmental  
assessment

Procedures

Follow-up  
supervision  
measurement

# What is environmental certification?

## **For employees and coworker:**

- Keeping track of the environmental policy.
- Contribute in ways that you know the overall environmental goals, especially travel and purchases.
- Submit suggestions for improvement!
- Keeping abreast with the environmental information, such as when the external audit takes place.

# Environmental Coordinator should be available in all departments
