

Welcome to a CRU afternoon seminar entitled

3I; Immunity, Inflammation and Infection in reproductive tissues

Time: Thursday the 9th of March 13:30 – 17:00

Place: Biocentrum room A241 (Undervisningsplan 1, SLU, Ultuna)

Organizer: Patrice Humblot (SLU, KV): Patrice.humblot@slu.se

Preliminary schedule:

G. Foucras (ENVT, Toulouse, France): "Role of the host genetic background on immunity to mammary infections. Lessons learned from a sheep model"

Y. Guo (SLU, KV): "Effect of LPS on transcriptomic profiles of epithelial endometrial cells implications for implantation"

A. Andronowska (Institute of Animal reproduction and food research, Poland): "The role of chemokines and immune cells in corpus luteum function"

Coffee break

G. Michaelidis (Aristotle University of Thessaloniki, Greece): "Activation of innate immune system in response to bacterial infections in the chicken reproductive organs"

R. Båge (SLU, KV): "Involvement of BoHV4 in clinical cases of metritis"

Coffee and cake will be served (please register to ylva.sjunnesson@slu.se latest the 7th of March so we can order the right amount).
