Grants

The two Uppsala university representatives in One Health Sweden's steering group, professor, MD Björn Olsen and Assoc. professor, MD Josef Järhult, have been awarded grants from the Swedish Research Council VR; Section Medicine and Health. Josef Järhult for his project Antimicrobial resistance in the environment and Human health impact, with a total of 6 million SEK during four years. Björn Olsen for his project Molecular mechanisms for the spread of Influenza A-virus between species, a total grant of 7,2 million SEK for a four year period.

Other relevant activities

March: Björn Olsen became an Honorary Doctor at the Linnéus University

September: OHS in Health Care Without Harm Europe's Annual Review 2016

29 Sep: Front. Vet. Sci. "A Comparison of Three Holistic Approaches to Health: One Health, EcoHealth, and Planetary Health", Henrik Rönnberg & Lotta Berg.

Autumn: Contacts with Candidates and the Junior doctor association in Uppsala planning a thematic evening about antimicrobial resistance for students (doctors and veterinarians etc)

Dissertations: Gete Hestvik, "Tularaemia in Swedish wildlife a One Health perspective", SLU.

IEE-journal: The One Health Journal "Infection Ecology and Epidemiology" has during 2017 published 18 articles on the theme infection biology from a One health-perspective. IEE has changed publishing group from Co-Action Publishing to Taylor & Francis Group. All material is published online and is open access for researchers globally within this field.

The One Health Sweden-network webb is used to announce seminars, research pubs, conferences, meetings, public examinations, successful lobbying work, nationally and internationally, media appearances among the membership and others with a OH-relevance. The aim is to keep the members informed as well as academia, institutions, other networks, authorities, civil servants and politicians as well as to give an over view over One Health Sweden's scope and importance within the field of multidisciplinary OH-research and influencing.
