Approach the SDGs

Systematically analyse the targets

- Identify SDGs and targets you contribute to

- Identify interactions with other SDGs and targets

Interactions between targets (ctd)

Example:

Fig. 2 Cross-impact matrix of 34 targets and their interaction in Sweden. *Colour* according to scale in Fig. 1: from *dark red* (−3/cancelling) to *dark green* (+3/indivisible). The net influence from a target on all other targets is shown by the row-sum and the column-sum shows how much a target is influenced by all other targets in total
