

Thesis summary writing workshop

at 9-15 on March 5th, 2020, in Uppsala

Welcome to a thesis summary writing workshop for PhD students! The workshop is organised by the research schools Focus on Soils and Water, Ecology and Organism Biology, and is open for all PhD students at SLU.

The aim of the workshop is to give insights and inspiration on how to write a thesis summary. The topics covered are legal issues concerning the thesis summary writing process, writing inspiration, and advice and discussions on “best practices” for writing a thesis summary.

Application and information

Register by email to torun.hammar@slu.se on February 22nd at the latest. Please state department, allergies or food preferences and if you wish to participate by videolink. More information and schedule can be found on the research school's [homepage](#).

For further questions, please contact the workshop organisers:
