

PhD-Careers Outside Academia

Do you want to pursue a career outside of academia?! Have you asked yourself what possibilities you, as a PhD, have in the labour market outside of the university?! Do you want to improve your chances of finding your dream job?!!

Then come to the one-day seminar hosted by the NJ-faculty research schools to hear from former PhD students that graduated and have gone on to pursue jobs outside the university setting. You will get a different perspective on careers choices, finding your “dream job”, self-employment possibilities, prospects and possibilities in the current labour market, etc...

When: November 12th 2021. Where: Via Zoom !
