

# Patents & Intellectual Property Rights in Academy

**A seminar arranged by Graduate School for Veterinary Medicine and Animal Science (GS-VMAS)**

**Date:** April 25, 2024

**Time:** 12.15 – 13.30

**Place:** Tanngrisner 2, VHC

*Interested in patents and how to protect research-based ideas? Join our seminar on principles for managing intellectual property in research. The seminar will provide information on the roles of university, researchers, and PhD students in utilizing research results with intellectual property rights for educational purposes and publishing research findings.*

Christer Frånlund is a senior Innovation and Business Advisor from SLU holding. He will present principles on patents and intellectual property rights in academy.

Gabriella Lindgren, senior lecturer and assoc. professor at HBIO, will present her experience with patents and the protection of research-based ideas.

*A lunch sandwich will be available for those who register.*
