

PVS0151 Sperm Quality Evaluation, 2 credits

PhD course arranged by Graduate School for Veterinary Medicine and Animal Sciences (GS-VMAS) in collaboration with the Centre for Reproductive Biology in Uppsala, CRU

Course date: May 14-18, 2018

Location: Uppsala

Content

The course covers the following fields: the concept of sperm quality, what it is and why it is needed in different situations; how it is evaluated from basic field laboratory to advanced research setting; how it is used for different species; pitfalls in sperm quality evaluation; how it can be improved in the future. There will be a series of tutor-led lectures, workshops and practical sessions.

Prerequisites

Students should be admitted to a postgraduate program in animal science, biology, veterinary medicine, food science, nutrition, nursing, or related subjects, or to a residency program in veterinary science
