

How to write and publish a scientific paper, 4.5 hp

October 4, 2023 – January 10, 2024 at Ultuna

This course will provide instructions on how to structure and format each section of a scientific manuscript. Focus will be placed on basic writing skills, particularly on how to write clear and concise sentences, paragraphs and sections. The course consists of seven lectures/seminars and group discussions every two weeks.

You should be in the stage where you have results ready to write your own manuscript and ideally have already started the writing process. During the course you will receive constructive feedback on your own text.
