

Scholarship opportunity!

Do you want to spend up to 20 weeks in Ethiopia?

The Department of Energy and Technology runs a Linnaeus-Palme Exchange program together with Addis Ababa University since several years. **During 2017/2018 academic year, and even extended to part of 2018/2019**, there is an opportunity for **two students** to participate; either to take courses at Addis Ababa University and/or to carry out field work for their master's or candidate thesis.

The exchange can take place any time during **January 2018 to October 2018** (to stay at least 12 weeks). Expenses are covered by a stipend of up to **25 000 SEK**.

- Credits taken can be included in the Swedish exam
- Some courses offered can be found here <http://www.aait.edu.et/>
- The students should have at least one year university studies before the exchange
- Link to SLU's student web: More info about Linnaeus-Palme exchange

The – recommended! – blog by Antonia and Josefine, our students in 2012: <http://blogg.slu.se/students-in-ethiopia/> , or contact 10 other Swedish students who have participated in the program.
