Crane Seminar 2021 via Zoom

Welcome to the Crane seminar and PhD course with the theme "Animal Assisted Intervention", April 12-16 2021!

Animal Assisted Intervention is a goal oriented and structured intervention that intentionally includes or incorporates animals in health, education and human service (e.g., social work) for the purpose of therapeutic gains in humans. It involves people with knowledge of the people and animals involved. Animal assisted interventions incorporate human-animal teams in formal human service such as Animal Assisted Therapy (AAT), Animal Assisted Education (AAE) or under certain conditions Animal Assisted Activity (AAA) and Animal Assisted Coaching (IAHAIO White paper 2018).

The aim of this PhD course is to let our invited speakers give a deeper knowledge into their research area and give participants the opportunity to discuss and learn from each other. The following main lecturers will appear in the course: Prof. em Marie-Jose Enders-Slegers, Ass Prof Ng Zenithson and Ass Prof Bente Berget. Other teachers are Aubrey Fine, Karen Thodberg, Petra Andersson & Linda Handlin.

The course will be held via Zoom. The course constitutes of lectures, discussions and virtual study visits. The examination form is an individual project plan.

All PhD students and other participants must make an **application no later than 31th of March 2021**. PhD students must register both at the link below and at GS-WMAS web (www.slu.se/gs-vmas-courses).
