

**PhD
Course**

TOPICS:

- Drug design
- High-throughput screening
- Single-molecule imaging
- Cryo-EM
- Guided nanomolecular assemblies
- Enzyme engineering
- Proteases, N-terminomics
- Intrinsically disordered proteins

Advances in Enzyme Regulation

Lectures 21-30 November 2018 | SLU, Uppsala

<https://www.slu.se/enzyme-regulation>

CONTENT

The program includes two modules: lectures on above topics and training in writing research proposals

ORGANIZERS

Peter Bozhkov
Galia Zamaratskaia

REGISTRATION

Deadline: 1 November 2018

Contact:

galia.zamaratskaia@slu.se
018-672005

SPEAKERS

Alexey AMUNTS
Stockholm University

Elias ARNÉR
Karolinska Institutet

Stina BERGLUND
Umeå University

Jens CARLSSON
Uppsala University

Sebastian DEINDL
Uppsala University

Mikael ELOFSSON
Umeå University

Christiane FUNK
Umeå University

Kris GEVAERT
Ghent University

Panagiotis MOSCHOU
SLU

Jerry STÅHLBERG
SLU

Vladimir UVERSKY
University of South Florida
