1. Referee reviewed publications, Maud Langton

2016 Camilla Öhgren, Nieves Fabregat, Maud Langton Quality of bread baked from frozen dough - effects of rye, and sugar content, kneading time and proofing profile LWT - Food Science and Technology, 68, 626-633, May 2016, http://dx.doi.org/10.1016/j.lwt.2015.12.069

2015 Carolin Menzel; Mariette Andersson; Roger Andersson; José L Vázquez-Gutiérrez; Geoffrey Daniel; Maud Langton; Mikael Gällstedt; Kristine Koch, Improved material properties of solution-cast starch films: Effect of varying amylopectin structure and amylose content of starch from genetically modified potatoes. Carbohydrate Polymers Volume 130, 14 June 2015, Pages 388-397

2015 Daniel P Johansson, Isabella Lee, Ulf Risérus, Maud Langton, Rikard Landberg Effects of Unfermented and Fermented Whole Grain Rye Crisp Breads Served as Part of a Standardized Breakfast, on Appetite and Postprandial Glucose and Insulin Responses: A Randomized Cross-over Trial, PLOS-one, March 31, 2015, DOI: 10.1371/journal.pone.0122241

2013  Johanna Eckardt; Camilla Öhgren; Ayse Alp; Susanne Ekman; Annika Åström; Guo Chen; Jan Swenson; Daniel Johansson; Maud Langton,. Long-term frozen storage of wheat bread and dough - Effect of time, temperature and fibre on sensory quality, microstructure and state of water., Journal of Cereal Science 57 (2013) 125-133

2013  Guo Chen; Camilla Öhgren; Maud Langton; Kaare F Lustrup; Magnus Nydén; Jan Swenson. Impact of long-term frozen storage on the dynamics of water and ice in wheat bread., Journal of Cereal Science 57 (2013) 120-124

2011  Lopez-Sanchez P, Svelander C, Bialek L, Schumm S and Langton M. Rheology and microstructure of carrot and tomato emulsions as a result of high pressure homogenisation. Journal of Food Science, 76 (1), 130-140

2007 | Brink, J., Langton, M., Stading, M. and Hermansson, A.-M. Simultaneous analysis of the structural and mechanical changes during large deformation of whey protein isolate/gelatine gels at macro and micro levels. *Food Hydrocolloids* 21, 409-419

1989 Langton, M. and Hermansson, A.-M. Microstructural changes in wheat starch dispersions during heating and cooling *Food Microstructure* **8**:1, p. 29-39
Langton, Maud

2. Other publications (Book chapter, conferences, etc)

2009  Lopez-Sanchez, P., Bialek, L., Schumm, S. and Langton, M. Rheological properties of plant food dispersions. *Annual Transactions of the Nordic Rheology Society* 17

2006  Langton, M., Richardson, G., Hermansson, A.-M., and Alminger, M. Microstructure control for ingredient processing, in *Gums and Stabilisers for the Food Industry* 13 Edited by P A Williams

2004  Anne-Marie Hermansson, Maud Langton and Camilla Olsson Designing Structure into food, *Gums and Stabilisers for the Food Industry* 12 Edited by P A Williams

2003  Richardson, G., Langton, M., Bark, A., Hermansson, A.-M., Wheat starch gelatinization - the effects of sucrose, emulsifier and the physical state of the emulsifier, Conference Proceedings: International Symposium on Future Technologies for Food Production and Future Food Scientists, Publisher SIK, ISSN: 0280-9737, Accession Number: WOS:000189500100030

2002  Edrud, S., Stading, M. and Langton, M.
Rheology of Crispy Textures,  
*Annual Transactions of the Nordic Rheology Society, Vol.10*  

2000  Olsson, C., Langton, M., Stading, M. and Hermansson A.M.

2001  Åström, A. and Langton, M.
Produktutveckling mot önskad sensorisk upplevelse  
*Livsmedelsteknik 8-9/01*, 46-47

1998  Åström, A., Langton, M. and Hermansson, A.-M.
Sensory perception and microstructure of flavoured yoghurts,  
*COST96 Sept 1998 in Athens, ©CECA-CE-CEEA, Bruxelles. Luxembourg*

1998  Langton, M.
Controlling quality properties of mayonnaise by influencing the microstructure,  
*Lipidforum-Nytt Nr 56*, Autumn 1998

1997  Langton, M., Ramard, C. and Leufvén, A.
Characterization of β-lactoglobulin gels with banana aroma and monolaurin.  
*COST96, ©CECA-CE-CEEA, Bruxelles. Luxembourg*

1991  Langton, M.
The microstructure of yoghurt. A literature review.  
*SIK-Rapport (Sweden), 1991*
