

Contact/responsible persons for the VR-glasses

(in the Natureach project)

- *Luleå Tekniska Universitet (Särkivaaragården): Johan Jirlén*
- *Palliativ Medicin Umeå: Sofia Persson*
- *Österåsen: Julia Elfving*
- *Vaasa hospital and Eskoo: Joni Piispanen*

THESE ARE THE RESPONSABILITES FOR THE CONTACT PERSONS:

1) Installation

- a) **Install software (the new Natureach app) in the VR-headsets.** Will also update the app if/when new versions are available.
- b) **Copy the nature videos to the VR-headsets.** Martin will supply the nature videos when they are ready.

2) Maintenance *(this maybe delegated to a staff member at respective client site)*

- a) Making sure the **VR-headsets are in good condition** throughout the project
Replace any broken parts, keep track of where they are, make sure the internal clock is correct etc.
- b) Be the **“tech support”** for anyone (staff or patients) using your headsets.

SUPPORT FOR THE CONTACT PERSONS

A guide for the interventions is beeing written in project including a detailed instruction on managing the VR-glasses!

These are the people to turn to for further help for the contact persons:

- **Martin Gärdemalm:** Downloading nature videos and app. Any questions regarding the videos.
martin.gardemalm@slu.se
+4673-0589172
- **Joni Piispanen:** Any questions regarding the Natureach app and any general technical questions regarding VR-headset hardware (buttons, controllers, battery etc.). Any questions regarding connections between VR-headsets and computers. Any feedback on the app can also go to Joni.
joni.piispanen@uwasa.fi
- **Johan Jirlén:** General technical questions
