School for Forest Management

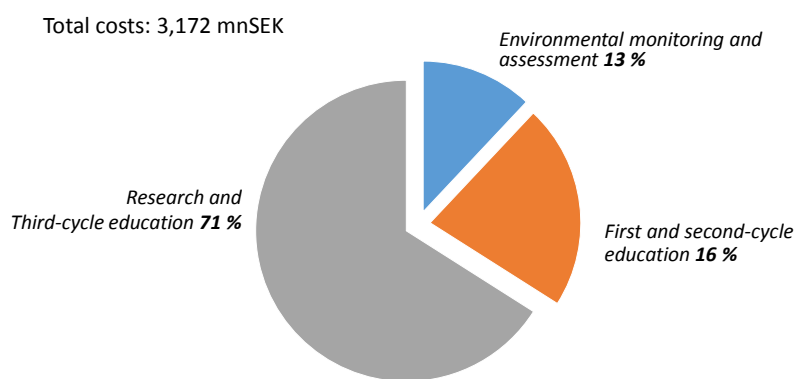

SLU nationwide

SLU has a **nationwide** presence, its largest campuses being at Alnarp, Skara, Umeå and Uppsala.

SLU has a **focused profile, unique in Sweden** in areas of strategic importance to society, nationally and globally.

Breakdown of expenditure

Source: SLU's Annual Report 2015

Education programmes

- 24 first-cycle programmes
- 17 second-cycle programmes, mostly in English
- Over 300 courses
- Aproximatly 3,800 full-time students
- 5 students per teacher
- Good exchange agreements and international collaboration

24 first-cycle programmes

Bachelor's/vocational programmes

- Agricultural and rural management
- Animals for Sports and Companion
- Biology and environmental science
- Biotechnology
- Economics
- Equine science
- Ethology and animal welfare
- Forest management
- Horticultural management – cultivation
- Horticultural management – design
- Landscape management, design and construction
- Veterinary nursing

Longer vocational programmes

- Agricultural science – economics
- Agricultural science – domestic animals
- Agricultural science – rural development
- Agricultural science – food
- Agricultural science – soil/plant
- Energy systems engineering
- Environment and water engineering
- Forestry
- Horticultural science
- Landscape architecture – Alnarp
- Landscape architecture – Ultuna
- Veterinary medicine

Faculty of Forest Sciences

Second largest faculty at SLU

- 600 Students
- 570 Employees
 - 58 professors
 - 91 PhD-students

Faculty of Forest Sciences

Departments

- Ecology
- Forest Biomaterials and Technology
- Forest Ecology and Management
- Forest Economics
- Forest Genetics and Plant Physiology
- Forest Mycology and Plant Pathology
- Forest Products
- Forest Resource Management
- *School for Forest Management*
- Soil and Environment
- Southern Swedish Forest Research Centre
- Unit for Field-based Forest Research
- Wildlife, Fish and Environmental Studies

General research areas

- Sustainable use of the forest as a natural resource
- Forest management
- Remote sensing and forest planning
- Natural resource economy (of bioenergy etc)
- Biomaterials and bioenergy - biorefineries
- Forest as a rehabilitation environment
- Forest syntheses and analyses – scenarios and trade-offs

School of Forest Management, Skinnskatteberg

- Main teaching in the Bachelor of forestry programme and in the real estate program (one year distance teaching)
- Research in the field of rural development and to some extent in bioenergy from forests and forestry
- 150 students Bachelor of Forestry, 50 on the real estate program and some 30 employees

Sent students 2016/17 from Faculty of Forestry

- Albert-Ludwigs Universität, Freiburg im Breisgau, Germany
- Universität für Bodenkultur, Vienna, Austria
- University of Gloucestershire, Celtenham, UK
- University of Wageningen, the Netherlands
- University of Padova, Italy
- Polytechnic University of Madrid, Spain

Note: No staff was sent either in or out.

Sending institutions 2016/17 to Faculty of Forestry

- Albert Ludwigs Univesität, Freiburg im Breisgau, Germany
- Aleksandro Stulginskio Universitetas, Lithuania
- Czeska zemdelska univeszita v Praze, Check Republic
- Dresden Technische Universität. Germany
- Eesti maaulikool, Estonia
- Göttingen, Georg-August Universität. Germany
- Internationale agraische Hogeschool Larenstein, the Netherlands
- Göttingen, Georg-August Universität, Germany
- Hochschule fur Forstwirtschaft, Rottenburg, Germany

Sending institutions 2016/17 to Faculty of Forestry (continues)

- Mendelova zemedelska a lesnicka univeszita v Brne, Czech Republic
- Poznan University of Life Sciences, Poland
- University of Copenhagen, Denmark
- Universitita degli studi di Padova, Italy
- University of Eastern Finland
- Universitet Gent, Belgia
- Universitetet for miljø- og biovitenskap, Ås Norway
- Poznan University of Life Sciences, Poland
- Wageningen Universiteit, the Netherlands
- Warsaw University of Life Sciences, Poland

Incoming students 2016 – 2017 (summary)

Country	Number of students
Germany	16
Denmark	15
Latvia	12
Czech Republic	10
The Netherlands	9
Poland	8
Finland	6
Lithuania	6
Estonia	4
Belgium	1
Norway	1

International Course
Trade and Marketing of Wood Products
February 05– May 18, 2018

Credits: 22.5 ECTS
Subject: Forest Management/Forest Science
Level: Basic
Language: English
Location: Skinnskatteberg, Sweden

Course organizers
The Swedish University of Agricultural Sciences (SLU) offers the course and the responsible department is School for Forest Management, with contributions by SLU Department of Forest Products.

Applicants
International trade and marketing of wood products is an important part of the global forest industry. This course is directed towards students interested to work with qualified tasks in international trade and marketing of wood products. The course is open for Swedish and international applicants. In previous courses, students from e.g. the Netherlands, Poland, Estonia, Lithuania, Latvia, Finland, UK, Germany, Russia, Poland, China and Cameron have participated.

Course description
The course gives theoretical knowledge and practical experience on wood material and wood products including bioenergy, sales and marketing of wood products in different stages of trade and laws, negotiations and agreements in wood trade. After the course the students have a good knowledge about the relation between market demands and the different stages of production: forest – industry – market. The course includes theoretical lectures, excursions and study visits. At the final stage of the course the students will perform a marketing project work.

Necessary qualifications for applicants and other information
Applicants need university studies with the equivalence of one year study at the first cycle (Bachelor level), 60 credits. Relevant working experience and/or non-formal training may, after evaluation, compensate for forest or environmental studies. Good knowledge in English is a prerequisite.

The education is free of charge, except for non-EU/EEA/Switzerland citizens. Costs for literature, photocopies, etc. of approximately EUR 50 are to be paid by the student. SLU organize accommodation and cost is approx. EUR 300 per month.

Student Exchange programs as Erasmus and Nordplus are possible sources of finance.

Application
You find the Course information and Syllabus here:
