

MEET THE TEAM**Miron M. Arljung**

Research Assistant, EC division, SLU
Geographer and environmental communicator. You can find me out exploring the world, playing music or at the usual tabletop rpg/boardgame night with friends.

**Ana Maria Mutis**

2nd-year student in SLU's ECM program
32 year old Colombian re-discovering my love for communication! After working in the advertising field for quite a long time, as a I'm thrilled to have found a new way to understand and make use of communication.

**Seyifunmi Adebote**

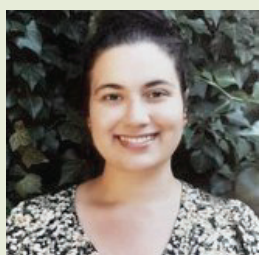

2nd-year student in SLU's ECM program

When not studying, doing WECAN stuff or recreationally writing; Seyifunmi loves to run, play Scrabble/ Sudoku, waste time on LinkedIn/Twitter, listen to podcasts/reggae music and sleep!

**Arwa Abutaleb**

2nd-year student in SLU's ECM program

I strive to contribute valuable research and insights to environmental aspects and a sustainable future. My background in microbiology and biotech and made me realize how all of us should strategically collaborate for a better use of our planetary resources and safer environment.

**Alejandra Figueredo**

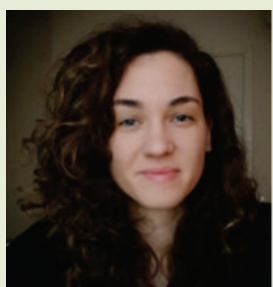

Research Assistant, EC division, SLU

I've worked both in government, NGOs and with research. I enjoy a good cup of Colombian coffee and am a geek of every series you can imagine. My favorite things from Sweden are fika and the forest.

**Hanna Tabea Mönning**

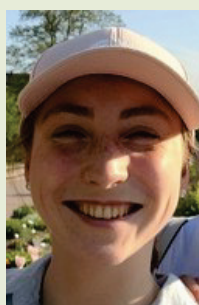

2nd-year student in SLU's ECM program

Originally from Germany. I want to use my knowledge from my studies to help create a more sustainable use of resources and support communication between stakeholders to find solutions for environmental challenges.

**Daniela Kreber**

Research Assistant, EC division, SLU

A sea enthusiast, grounded in Environmental Sciences, fueled by a passion for exploring human-nature relations through phenomenology, posthumanism, and new materialism. I enjoy running, yoga and a good double shot of espresso.

**Merle Gemke**

2nd-year student in SLU's ECM program

I'm from Germany and 24 years old, Like some theories in ECM turned my understanding of the world upside down, I enjoy to do that myself in my free time with pole dance and aerial hoop.
